

THE DOOR IS OPEN

TRANSFER GUIDE FOR NASSAU COMMUNITY COLLEGE STUDENTS

Effective Fall 2005 through Fall 2007

Articulation Agreement between Nassau Community College and SUNY New Paltz

The purposes of this agreement are as follows:

1. To attract qualified transfer students to Nassau Community College and SUNY New Paltz.
2. To provide the effective transition of transfer students, holding the Associate in Arts (A.A.), Associate in Science (A.S.) and Associate in Applied Science (A.A.S.) degree from Nassau Community College to SUNY New Paltz.
3. To foster continuous communication between the respective departments to facilitate curriculum changes when appropriate and to provide accurate and timely advisement for interested students.

Terms of the agreement:

SUNY New Paltz agrees to accept all students who have earned the Associate in Arts (A.A.) or Associate in Science (A.S.) degree in Liberal Arts: Humanities and Social Sciences or Mathematics and Science from Nassau Community College with full junior standing when transferring to a parallel program at New Paltz in accordance with the following:

SUNY New Paltz agrees to:

1. Accept up to 70 academic credits toward the baccalaureate degree upon award of the degree from Nassau Community College. A.A. and A.S. degree holders from Nassau, when transferring directly after receiving the degree, are considered to have met SUNY New Paltz's native general education requirement, but not necessarily the SUNY Mandated General Education requirement. An individual transfer credit evaluation will be provided to determine credits completed and credits still needed to meet the SUNY Mandated General Education requirement.
2. A.A.S. degree holders generally have a larger number of non-liberal arts courses in their Nassau program than A.A. or A.S. students. However, each applicant also receives an individual transfer credit evaluation with an assessment of credits completed and credits still needed to meet both general education requirements.
3. Grant credit toward the majors outlined in this course equivalency guide. In accordance with general college policy, one-half of the major must be completed at New Paltz.
4. Provide the opportunity to earn the baccalaureate degree in a parallel program in not more than four additional semesters of successful, planned full-time study, or part-time equivalent.
5. Guarantee the Nassau Community College students accepted in transfer under the terms of this agreement will also be subject to any special requirements applicable to students who originally enrolled as freshman to SUNY New Paltz.

**Concentration within the major*

ART EDUCATION

The Art Education Department offers a program leading to the Bachelors of Science degree. Upon completion of the program, students are eligible for initial New York State certification to teach art in the public schools, grades K-12.

The Art Education program provides a concentration, which includes work in studio art and art history, child and adolescent psychology, curriculum development, philosophical and theoretical approaches to art education, and critical and evaluative analysis in art education. See the New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

NASSAU COURSES

ART 105 Principles of 2-Dimensional Design
ART 106 Principles of 3-Dimensional Design
ART 111 Drawing I
ART 112 Drawing II
ART 201 Survey of Art History I
ART 202 Survey of Art History II
PSY 208 Foundations of Education

EQUIVALENT NEW PALTZ COURSE

09102 Integrated Design I: Space and Form
09103 Integrated Design II: Forces
09100 Drawing: Visual Thinking I
09101 Drawing: Visual Thinking II
11201 Art of the Western World I
11202 Art of the Western World II
38340 Social and Philosophical Foundations of Education

A grade of 'B' is required for each course in the foundation sequence (Drawing I: Visual Thinking I, Drawing II: Visual Thinking II, Integrated Design I: Space and Form, Integrated Design II: Force).

In addition, art education students must complete a series of courses in education, art education, and a specialization in art. See New Paltz catalog for details. Art Education courses are not available at Nassau, and must be taken at New Paltz. Some of the art studio courses, which comprise the specialization in art, may be taken at Nassau. See section on ART STUDIO for details.

Nassau courses not listed above may be accepted in transfer by New Paltz as general elective credit toward the degree with the exception of those courses that are remedial/developmental in nature.

ART HISTORY

The Department of Art History offers courses in the history of painting, sculpture, architecture, graphic and decorative arts, design, photography and film. A major in this department requires 33 credits of Art History courses and leads to the B.A. degree. Students contemplating advanced study in art history are strongly urged to take a foreign language, preferably French or German.

Students in the B-2 Early Childhood and 1-6 Childhood Education programs may select an Art History concentration as part of the education curriculum. See the New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

NASSAU COURSES

Required:

ART 201 Survey of Art History I
ART 202 Survey of Art History II

EQUIVALENT NEW PALTZ COURSE

11201 Art of the Western World I
11202 Art of the Western World II

Select three electives:

ART 101 Art History (Ancient and Medieval)*
ART 102 Art History (Renaissance)*
ART 103 Art History (Baroque through Realism)*
ART 104 Art History (Contemporary)*
AFR 100 African Art and Culture*

No corresponding course*
No corresponding course*
No corresponding course*
No corresponding course*
No corresponding course*

**May be used as elective credit toward the New Paltz Art History major where applicable.*

Nassau courses not listed above may be accepted in transfer by New Paltz as general elective credit toward the degree with the exception of those courses that are remedial/developmental in nature.

ART STUDIO

Students seeking an undergraduate degree in art may pursue one of the following programs:

(1) Bachelor of Fine Arts (B.F.A.) in Art Studio, with a concentration in either ceramics, metal, painting, printmaking, graphic design, photography, or sculpture. (2) Bachelor of Arts (BA) or Bachelor of Science (B.S.) in Visual Arts. The program is served by a large staff of practicing artists.

SUNY New Paltz courses numbering 09100, 09102, 09103, and 09101 are requirements common to all of the above programs. The remaining courses listed here are required or electives depending upon the concentration the student selects. See New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

NASSAU COURSES

EQUIVALENT NEW PALTZ COURSE

ART 100 Introduction to Visual Arts

09105 Introduction to Drawing and Design

Required courses:

ART 105 Principles of 2-Dimensional Design

09102 Integrated Design I: Space and Form

ART 106 Principles of 3-Dimensional Design

09103 Integrated Design II: Forces

ART 111 Drawing I

09100 Drawing: Visual Thinking I

ART 112 Drawing II

09101 Drawing: Visual Thinking II

ART 201 Survey of Art History I

11201 Art of the Western World I

ART 202 Survey of Art History II

11202 Art of the Western World II

A grade of 'B' is required for each course in this foundation sequence (Drawing I: Visual Thinking I, Drawing II: Visual Thinking II, Integrated Design I: Space and Form, Integrated Design II: Force).

Select courses based on a specific concentration:

ART 115 Painting I*

09240 Basic Painting*

ART 116 Painting II*

***REVIEW REQUIRED:** All courses taken beyond the freshman year sequence must be reviewed by appropriate option faculty through portfolio submission prior to equivalency credit being granted. Coursework not so credited will be considered art electives or general elective credit toward the degree. See Transfer Art Portfolio information.

ASIAN STUDIES

The major and minor in Asian Studies is designed to provide students with a broad working knowledge of the region's history, geography, language and culture. Students pursuing this major will embark on 36 credits of interdisciplinary courses offered through the following departments: Anthropology, English, Foreign Language, Geography, History, Philosophy, and Political Science. Students are also required to complete at least two years of Chinese or Japanese language.

The minor consists of 18 credits and at least one year of either language, along with courses selected through advisement.

One-half of the credits in the major must be completed at New Paltz.

BIOLOGY

Biology encompasses a number of fields that range from molecular and cell biology on one hand to environmental studies and animal behavior on the other. In addition to extensive classroom and laboratory facilities, the Biology Department maintains both scanning and transmission electron microscope facilities. The surrounding area provides an excellent setting for field biology courses.

Students may major in liberal arts Biology with concentrations in (1) Organismal/Environmental Biology, (2) Cell/Molecular Biology and Biotechnology, or they may select a biology major in childhood or adolescence education programs. Any of the liberal arts biology major concentrations provide the necessary course work for entrance into the pre-medical professions.

The New Paltz courses numbered 15201 and 15202 are required for any of the above major programs. The other courses listed are electives or required for the major, depending upon the specific program. See New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

BLACK STUDIES

The Black Studies Department seeks to provide a more thorough and accurate treatment of the history of Black people in America. It examines the impact of current economic, social and political forces that shape the Black experience and contributes to a basic understanding of the special problems faced by Black people in contemporary American life. The major provides an opportunity to study the artistic expressions of Black people and for research and creative activity in Black studies, both on campus and in the community. In its comprehensive approach, and as a complement to more traditional majors, the Department of Black Studies seeks to prepare students for most professional careers outside the science fields.

Students in the B-2 Early Childhood and 1-6 Childhood Education programs may select a Black Studies history or literature concentration as part of the education curriculum. See New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

BUSINESS ADMINISTRATION

The School of Business at SUNY New Paltz offers the B.S. in Accounting, Finance, General Business, International Business, Management, and Marketing. These degree programs are designed to meet the demand for qualified graduates to work in today's global marketplace.

All students must take the Core Requirements (39 credits) and have a Math Proficiency Level of 4. Some courses have prerequisites of which students must be aware. The Accounting degree requires 24 major credits for a total of 63 degree credits. The General Business, International Business and Marketing degrees require 20 major credits for a total of 60 degree credits. The Finance and Management degrees require 18 major credits for a total of 57 degree credits.

Acceptance as a major in the School of Business is based upon overall academic performance as well as performance in selected courses. All business students must complete College Algebra before achieving major status. Transfer students should be aware that (1) the university requires at least one-half of the courses in the major be completed at SUNY New Paltz and (2) transfer business courses which are given graduation credit by the university may not necessarily satisfy the business requirement. See the New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

CHEMISTRY

The Chemistry Department at New Paltz offers many advantages to the student interested in majoring in this field. It provides a strong background in general, organic, physical, and analytical chemistry, and offers a variety of courses not generally available at four-year colleges. New Paltz upper-division undergraduates are able to enroll in advanced courses in biochemistry, materials science, and instrumentation. High quality modern equipment is used for instruction and research in student laboratories. The small size of upper-division courses encourages close interaction between faculty and students. In addition, the chemistry faculty sponsor student research.

Two undergraduate programs leading to liberal arts degrees are available: the American Chemical Society (ACS) approved major and a general chemistry major. There are also concentrations in biochemistry and biotechnology. In addition, students in the adolescence (7-12) teacher certification program may select a chemistry major as part of the education curriculum. See the New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

Nassau courses not listed above may be accepted in transfer by New Paltz as general elective credit toward the degree with the exception of those courses that are remedial/developmental in nature.

COMMUNICATION DISORDERS

The Department of Communication Disorders offers two major programs: a liberal arts major and a speech education major. The liberal arts major (588) requires 48 credits and prepares students for graduate study in speech-language pathology, audiology, and related areas. The speech education major (Speech and Language Disabilities, major code 790) has just been re-registered to meet the new New York state requirements for the Initial Certificate as a Teacher of Students with Speech and Language Disabilities. This unique program is linked to the graduate program in Speech-Language Pathology. Please see the New Paltz catalog or the department web page for details.

All students must enter the liberal arts major (588) initially, usually in the fall semester of the junior year. The minimum GPA for declaration of the major is 2.8. (If the GPA is between 2.5 and 2.8, the student may request permission from the Department Chair to take the fall core courses). Admission to the Speech and Language Disabilities major (790) is by application only during the spring of the junior year.

One-half of the credits in the major must be completed at New Paltz.

COMMUNICATION AND MEDIA

The Department of Communication and Media offer several major programs with special tracks within each: Communication Studies includes emphases in Interpersonal /Intercultural Communication, Organizational Communication, Public Communication and Public Relations.

The Journalism major offers students theoretical understanding and the practical skills necessary to succeed in today's news media. See the New Paltz catalog for details.

The Electronic Media major may choose from one of two tracks: management or production. Management majors prepare in areas such as advertising, global media systems, law, research, and programming, for management positions across the various media. Majors in the Production track learn how to use the tools necessary to create mediated messages, but more importantly, they learn how the technology allows them to communicate effectively.

Students electing the ELECTRONIC MEDIA PRODUCTION SEQUENCE must complete a minimum of two production courses within the New Paltz program. See the New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

COMPUTER SCIENCE

The Department of Computer Science at New Paltz offers a liberal arts major in computer science and the Math Department offers a major in Mathematics with a concentration in Computer Science.

Transfer students from a two-year degree program in Computer Science which includes several semesters of college-level mathematics (calculus or above) and at least three courses in Computer Science can usually complete the major in Computer Science in two years. See the New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

ECONOMICS

New Paltz offers a B.A. and a B.S. in Economics, which is designed to incorporate a liberal arts education with a strong background in economics. In addition to the core requirements of the Economics program, students have the option of concentrating in Business Economics, International Economics or they may choose a general Economics program. The Economics program requires 42-43 credits. A minimum of College Algebra is required in the Economics program. See the New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

NASSAU COURSES**EQUIVALENT NEW PALTZ COURSE****ECO 207** Principles of Macroeconomics**33207** Macroeconomics**ECO 208** Principles of Microeconomics**33206** Microeconomics

Nassau courses not listed above may be accepted in transfer by New Paltz as general elective credit toward the degree with the exception of those courses that are remedial/developmental in nature.

EDUCATION

SUNY New Paltz offers undergraduate programs leading to certification in the following fields:

- *Early Childhood (B-2) and Childhood (1-6)
- *Adolescence (7-12)
- *Art (K-12) (See ART EDUCATION)
- *Speech and Hearing Handicapped (See COMMUNICATION DISORDERS section)

All of the above programs include intensive fieldwork in public schools and/or specialized institutions depending on the certification area selected.

EARLY CHILDHOOD (B-2) AND CHILDHOOD EDUCATION (1-6)

Students electing either childhood education certification programs must, in addition to, or as part of, the A.A. A.S. or A.A.S. degree, complete specific liberal arts coursework prerequisite to the curriculum, as well as choosing a liberal arts major.

Prerequisite liberal arts coursework includes:

- * **64140** Math for Elementary School Teachers
- * **64240** Geometry: A Modern Introduction
- * **48273** Basic Physical Geography
- * Two semesters of college level foreign language
- * **38371** Child Psychology and Development
- * **38340** Social and Philosophical Foundations of Education
- * **35370** Introduction to the Education of Diverse Populations in Early Childhood and Elementary School Settings
- * A Liberal Arts major selected from:

Art History (30 credits)**Geography** (30 credits)**Biology** (31-35 credits)**History** (30 credits)**Black Studies - History/Lit.** (30 credits)**Mathematics** (34 credits)**Earth Science** (36 credits)**Political Science** (36 credits)**English** (30 credits)**Spanish** (30-36 credits)**French** (30-36 credits)

One half of the credits in the liberal art major/concentration must be completed at New Paltz. After meeting all criteria as listed above, as well as maintaining the grade point average required, students may enter the Professional Semester, and subsequently Student Teaching (See New Paltz catalog for details).

NASSAU COURSES**EQUIVALENT NEW PALTZ COURSE****PSY 208** Foundations of Education**38340** Social and Philosophical Foundations of Education**PSY 213** Child Development**38371** Child Psychology & Development

NOTE:

1. All childhood (B-2/1-6) education students must complete one year of college-level study of a language other than English. See the FOREIGN LANGUAGE section of this booklet for Nassau/New Paltz equivalencies. Sign Language I and II for AA/AS holders is acceptable in meeting this requirement.

2. For equivalent coursework in the various liberal arts see the appropriate sections of this booklet and the New Paltz catalog.

Students must successfully pass the Liberal Arts and Sciences test (LAST), the Assessment of Teaching Skills-Written (ATS-W) and the Content Specialty Test (CST) of the New York State Teacher Certification Examination in order to be eligible for initial certification. Additional testing in the Assessment of Teaching Skills-Performance (ATS-P) is required for professional certification. These regulations are changing based on the new standards. Check with your education advisor for NYSTCE requirements.

ADOLESCENT EDUCATION (7-12)

The Adolescence Education department requires a 2.75 grade point average and achievement of a “B” or better in both Composition I and Composition II. Students seeking 7-12 certification must also major in one of the following disciplines:

Biology (65-72 credits)

Chemistry (56-59 credits)

Earth Science (59-65 credits)

English (42 credits)

French (36-48 credits)

Mathematics (47-48 credits)

Social Studies (45 credits)

Spanish (36-48 credits)

In addition to coursework required in the academic discipline (See appropriate sections of this booklet for equivalencies), one year of college level study of a language other than English, and a series of education courses is also required. Nassau offers the following equivalent coursework.

NASSAU COURSES

EQUIVALENT NEW PALTZ COURSE

PSY 208 Foundations of Education

38340 Social and Philosophical Foundations of Education

PSY 212 Adolescent Psychology

38372 The Developing Adolescent

NOTE:

1. All adolescence (7-12) students must complete one year of college level study of a language other than English. See the FOREIGN LANGUAGE section of this booklet for Nassau/New Paltz equivalencies. Sign Language I and II for AA/AS holders is acceptable in meeting this requirement.

2. For equivalent coursework in the various liberal arts majors see the appropriate sections of this booklet and the New Paltz catalog.

Students must successfully pass the Liberal Arts and Sciences test (LAST), the Assessment of Teaching Skills-Written (ATS-W) and the Content Specialty Test (CST) of the New York State Teacher Certification Examination in order to be eligible for initial certification. Additional testing in the Assessment of Teaching Skills-Performance (ATS-P) is required for professional certification. These regulations are changing based on the new standards. Check with your education advisor for NYSTCE requirements.

ELECTRICAL AND COMPUTER ENGINEERING

The Department offers comprehensive programs in Electrical Engineering and Computer Engineering. The Electrical Engineering program is accredited by the Engineering Accreditation Commission (E.A.C.) of the Accreditation Board for Engineering and Technology (A.B.E.T.). The Computer Engineering program will be eligible for accreditation by the E.A.C. of A.B.E.T. once the first computer engineering major is graduated.

Electrical and computer engineering continue to be the growth programs in the field of engineering due to a rapidly changing technological society and expanding industrial needs. The program at SUNY New Paltz is designed to meet these needs generally, and more specifically the needs of the Mid-Hudson Valley. Engineering students graduate with a high level of technical competence combined with a liberal arts education that helps to develop managerial or research potential. Demonstrating its commitment to the liberal arts and sciences, the university has designed a curriculum to insure that engineering students will have a solid background in the humanities and social sciences to complement their professional studies, and to provide them with the knowledge and skill necessary to adapt to a changing world.

A key feature of engineering at New Paltz is the close working relationship the university enjoys with local high technology industry. The interest and support of industry inspired the development of the program and now ensure that it continues to be relevant to expanding and changing industrial needs.

The flexible engineering curriculum is designed to serve full and part-time students, both traditional and non-traditional. The curriculum serves students new to the engineering field as well as those who have had some experience in technical areas.

Engineering students are educated in mathematics and the sciences under the direction of faculty from appropriate departments, while engineering courses are taught by engineering faculty. Students are prepared for research, development, and management positions or for further study of engineering at the graduate level in a research oriented atmosphere.

The Electrical Engineering and Computer Engineering curriculums consist of a humanities/social sciences component, a pre-engineering phase and upper division engineering coursework. It should be noted that because of A.B.E.T. accreditation, the engineering program requires a different, and more specific, liberal arts component than is required by other programs. For details of credits required in each component mentioned above, refer to the New Paltz catalog. See the New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

ENGLISH

The Department of English offers programs designed to give students a knowledge of literary heritage and to develop skills as writers and critics. Within the English major at New Paltz, a student may select one of four options: general liberal arts, graduate preparatory, creative writing, or creative writing for the theater. In addition, students in the childhood (B-2/1-6), or adolescence (7-12) teacher certification programs may select an English major. See the New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

**May be used as elective credit toward the New Paltz English liberal arts concentration/major where applicable.*

Nassau courses not listed above may be accepted in transfer by New Paltz as general elective credit toward the degree with the exception of those courses that are remedial/developmental in nature.

FOREIGN LANGUAGES

Nassau students who have taken French, Spanish, or German may continue that study at New Paltz, either as elective courses or as a major in one of those languages. Students in the childhood (B-2/1-6) education programs may select a French or Spanish major, while those in the secondary (7-12) education program may select a French, Spanish, or German major.

New Paltz also offers language instruction in Chinese, Hebrew, Italian, Japanese, KiSwahili, Latin, and Russian. Other languages, such as Arabic, Polish, Portuguese, Swedish, and Yiddish are offered under the auspices of the Weekend and Summer Language Immersion Programs.

New Paltz regularly offers overseas programs of varying lengths in China, Ecuador, France, Italy, Spain, Russia, and Germany, giving students an excellent opportunity to develop language skills and to learn directly about the target cultures. See New Paltz catalog for details.

NOTE: Students seeking certification in early childhood, childhood or adolescent education must complete one year of college level foreign language.

One-half of the credits in the major must be completed at New Paltz.

Nassau courses not listed above may be accepted in transfer by New Paltz as general elective credit toward the degree with the exception of those courses which are remedial/developmental in nature.

GEOGRAPHY

The department offers a comprehensive liberal arts major to prepare students for graduate study in geography or for employment in fields actively seeking geographers. Students in the childhood (B-2/1-6) programs may select a geography major, while those in the adolescence (7-12) program may select geography courses as part of the social studies major in the education curriculum. Additionally, the department offers a standard minor in geography. See the New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

Nassau courses not listed above may be accepted in transfer by New Paltz as general elective credit toward the degree with the exception of those courses which are remedial/developmental in nature.

GEOLOGICAL SCIENCES

Students may pursue a liberal arts major in geology with an optional emphasis in environmental geoscience or environmental geology. In addition, students in the childhood (B-2/1-6) or adolescence (7-12) teacher certification programs may select a geology major as part of the education curriculum.

The department has excellent laboratory and equipment facilities, including a full array of petrographic microscopes, a petrographic thin section preparation facility, complete survey equipment for field geology studies, x-ray diffraction and fluorescence equipment, a microcomputer laboratory, and access to an electron microscope facility. Members of the department encourage capable students to make maximum use of equipment, both in class and in supervised independent research. The department also sponsors field study classes that are important to the study of geology.

The geology major requires a number of cognate courses in physics, chemistry, and mathematics, in addition to the geology coursework. See New Paltz catalog for details.

HISTORY

SUNY New Paltz offers a liberal arts major in history. In addition, education students in the childhood (B-2/1-6) teacher certification programs may select a history major, and those in the secondary education (7-12) program, may select a social studies major.

The liberal arts history major requires 33 credits of history coursework including an upper-division seminar. Courses must be selected from European and United States History as well as from regions and cultures outside of these areas. See the History section of the New Paltz catalog for details. The secondary education (7-12) certification curriculum requires a social studies major that consists of selected coursework in economics, political science and geography, as well as in history. See the Secondary Education section of the New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

LATIN AMERICAN STUDIES

The major and minor in Latin American Studies are designed to provide students with a broad working knowledge of the region's history, geography, languages and cultures, as well as understanding of the diverse perspectives and value of its people. Students pursuing the major must take a required introductory course and a senior seminar, plus courses selected from a number of different departments, including Anthropology, History, Black Studies, Spanish, Geography, Political Science and Women's Studies. The major is designed to provide students with Spanish speaking skills sufficient for them to pursue some coursework in Latin American cultures and literature taught in Spanish. The Latin American Studies minor does not require proficiency in a foreign language. Students choose appropriate courses from at least three different departments and take a required introductory course.

Either a major or minor in Latin American Studies complements many other fields of study. As examples, a student majoring in International Relations, History, Business Administration, Spanish, or Geography can broaden his or her preparation for either graduate school or employment after graduation by completing a second major or minor in Latin American Studies. See New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

Nassau courses not listed above may be accepted in transfer by New Paltz as general elective credit toward the degree with the exception of those courses which are remedial/developmental in nature.

MATHEMATICS

The Mathematics major provides a strong theoretical background for graduate or industrial work in any area of mathematics. Three concentrations are available: pure mathematics, actuarial science and computer science. In addition, students in the Childhood (B-2/1-6) or Adolescence (7-12) teacher certification programs may select a mathematics major as part of the education curriculum.

Students develop a strong mathematical foundation applicable to many fields, the ability to think analytically and make sound judgments, and to organize, analyze and interpret numerical data. The department has adopted the Harvard calculus reform curriculum, which emphasizes that every topic be presented graphically, numerically and algebraically. The graphics calculator is an essential part of Calculus I and II, while Mathematica, a computer program utilized in performing mathematics, is used in more advanced courses. See the New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

MUSIC

Programs in music are designed to develop awareness of the beauty and meaning of the art as practiced in the past and present. Flexibility is encouraged in the planning of individual programs, both for those who wish to major in music and for those who wish to acquaint themselves with this facet of our culture. Most music courses reflect an integrated approach to the study of music.

Music majors will choose a concentration in performance (Classical or Jazz), music history and literature, or music theory and composition. A.B.S. degree in music therapy, with a separate set of requirements, is also available. SUNY New Paltz is fully accredited by the National Association of Schools of Music and the American Music Therapy Association. See the New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

MUS 207 Perspective on Jazz*	66160 History of Jazz*

**May be used as elective credit toward the New Paltz Music Therapy major where applicable.*

Placement Exams:

At the time of audition, all students take placement exams in theory, sight singing and ear training to determine their levels of proficiency. Students may choose to take placement exams in piano, voice and guitar in order to place into the advanced level or to waive a requirement.

NOTE:

A maximum of 2 credits in MUS 109, 110, 209 and 210 may be counted toward the ensemble requirement.

A maximum of 2 credits in MUS 111, 112, 125, 126, 211, 212, 225 and 226 may be counted toward the ensemble requirement.

A maximum of 2 credits in MUS 113, 114, 213 and 214 may be counted toward the ensemble requirement.

A maximum of 2 credits in MUS 115, 116, 215 and 216 may be counted toward the ensemble requirement.

A maximum of 2 credits in MUS 187, 188, 287 and 288 may be counted toward the ensemble requirement.

PHILOSOPHY

The Department of Philosophy offers both a major leading to the B.A. degree and a minor. Our program is designed to acquaint students with the major divisions of philosophy (logic, theory of knowledge, metaphysics, ethics and political theory, and aesthetics), and with the principal historical and contemporary figures and schools.

Philosophy is inherently interdisciplinary, so many of our courses are connected with other disciplines and subjects such as the natural sciences, the social sciences, history, language, literature and the arts, religion, technology, business, and medicine. Philosophical study requires and enhances the ability to think and write critically and effectively, and is excellent preparation for graduate study in various professions, including medicine, law, government, business and journalism. See the New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

NASSAU COURSES

EQUIVALENT NEW PALTZ COURSE

Select four electives:

PHI 101 Introduction to Philosophy*	71130 Introduction to Philosophy: Problems* No corresponding course*

**May be used as elective credit toward the New Paltz Philosophy major where applicable.*

Nassau courses not listed above may be accepted in transfer by New Paltz as general elective credit toward the degree with the exception of those courses which are remedial/developmental in nature.

PHYSICS

Physics is the study of the laws governing the natural universe. The great strength of a physics degree is its versatility and the problem solving skill of physicists that is sought by a wide range of employers. There are career opportunities in university teaching/research, adolescence school teaching, government and industrial labs, medical technology, computer programming, management, and finance. Physics graduates also have a good base entry into the professional schools of law, medicine and dentistry, in addition to physics itself.

A dual degree program culmination in a B.S. in Physics and a B.S.E.E. in Electrical Engineering is also available. See the New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

POLITICAL SCIENCE

The department offers two separate liberal arts majors and three minors: majors in Political Science, and International Relations; minors in Political Science, International Relations, and Law and Politics. Education students in childhood (B-2/1-6) teacher certification programs may select a Political Science major as part of the education curriculum. Students majoring in Social Studies in the adolescence (7-12) teacher certification program may take political science courses as part of that major.

The Political Science program at New Paltz includes courses in American government and politics, comparative politics, political theory, international relations, and a variety of offerings in law and law-related fields. Students may participate annually for academic credit in a Model United Nations Program at Harvard University. The department also offers a full-semester internship program, with a wide variety of internship placements open to students in the New York State Legislature and New York City government. Internships are also available with the Legislative Gazette, which is the only weekly newspaper covering the N.Y.S. Legislature. See the New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

Nassau courses not listed above may be accepted in transfer by New Paltz as general elective credit toward the degree with the exception of those courses that are remedial/developmental in nature.

PSYCHOLOGY

New Paltz offers a general liberal arts Psychology major and specialized psychology major with emphasis in Psychobiology or Industrial-Organizational Psychology. Minors in General Psychology and Industrial-Organizational Psychology are also available.

The Psychobiology concentration requires courses in general biology and genetics, between three and six credits in research, and several additional elective courses beyond the required psychology courses. The Industrial-Organizational Psychology concentration requires courses in business, three credits in research, and additional elective courses beyond the required psychology courses. See New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz. To declare a major in Psychology, students must have at least a 2.5 GPA and have successfully completed Introduction to Psychology with a C- or better.

THEATER ARTS

Students majoring in Theater Arts may specialize in either Performance or Design/Technical. The department also offers a Theatre Arts minor.

Acting training in the Performance track is supported by classes in directing and musical theatre. The Design/Technical track offers unique programs with the International Alliance of Theatrical Stage Employees, internships with professional companies, and the opportunity for a B.F.A. degree in Scenography. See the New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

Nassau courses not listed above may be accepted in transfer by New Paltz as general elective credit toward the degree with the exception of those courses that are remedial/developmental in nature.

WOMEN'S STUDIES

Women's Studies is an interdisciplinary academic program offering a Bachelor of Arts degree and a minor.

The foundation of the program is the study of women, past and present, in various fields of inquiry. The courses examine the presuppositions of academic disciplines from a feminist, multicultural perspective. They explore aspects of women's social, cultural and political experience in the United States and throughout the world. Some courses are offered through Women's Studies, and others are offered through other academic departments. An interdisciplinary course, Women: Images and Realities, provides the introduction to the program. There is a women's studies Practicum and a Senior Seminar for majors. See New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.
