

THE DOOR IS OPEN

TRANSFER GUIDE FOR ULSTER COUNTY COMMUNITY COLLEGE STUDENTS

Effective Fall 2006 through Spring 2009

THIRD REVISION

This agreement is subject to review at the request of either party.

All information contained here-in is accurate as of the time this publication went to press. However, changes in program and other details may have occurred since that time, current information may be obtained from the office of the department concerned.

SUNY New Paltz supports affirmative action and equal opportunity and does not discriminate in educational programs or employment.

Dear Student,

This booklet, THE DOOR IS OPEN, is the culmination of extensive consultations between the faculty and administration of Ulster County Community College and SUNY New Paltz to develop a comprehensive transfer agreement between the two institutions.

Many programs at two-year colleges can and should lead into those at four-year institutions, especially within SUNY. For example, students who receive A.A., A.S., and in many instances an A.A.S. degree from Ulster County Community College, should be able to complete their undergraduate study at New Paltz and earn a baccalaureate degree within a reasonable period of time. This transfer guide is designed to facilitate such an arrangement.

The DOOR IS OPEN was originally published in 1980 as the first comprehensive articulation agreement between Ulster County Community College and SUNY New Paltz. We are very proud of the cooperative spirit in which this work has been undertaken, and we believe that this agreement will be of great benefit to Ulster County Community College students who are considering transferring to complete a baccalaureate degree at SUNY New Paltz.

Donald C. Katt
President
Ulster County Community College

Steven Poskanzer
President
SUNY New Paltz

QUESTIONS...

About transferring to New Paltz, and the use of this transfer guide

Q. Does New Paltz offer the major I want?

A. New Paltz offers a wide variety of majors in both liberal arts and pre-professional programs, fine and performing arts, and education. Each major currently offered at New Paltz is listed in the Transfer Guide with Ulster equivalent course work. The full list of required coursework for each major appears in the New Paltz undergraduate catalog. This guide is designed for use in conjunction with the New Paltz catalog.

Q. Which of my Ulster courses will transfer to New Paltz?

A. New Paltz accepts up to 70 credits from each Ulster student, including up to 30 credits in non-liberal arts courses. An individual transfer credit evaluation will be provided to determine credits completed and credits still needed to meet the General Education requirement. Those A.A. and A.S. degree holders who complete courses in all ten knowledge and skill areas will be considered as having met SUNY New Paltz general education requirement. Prospective engineering majors must meet a different set of liberal arts requirements as part of the engineering curriculum in order to meet the ABET Accreditation Standards. A.A.S holders generally have a larger number of non-liberal arts courses in their Ulster program than A.A. or A.S. students. However, each applicant also receives an individual transfer credit evaluation with an assessment of credits completed and credits still needed to meet the General Education requirement.

Q. Does this mean that an A.A.S. student can transfer to New Paltz? I thought that only A.A. and A.S. students could transfer?

A. A.A.S. degree holders can and do continue their studies at four-year colleges and universities, including New Paltz. Many liberal arts programs have strong career components, such as journalism, electronic media -TV production, and business. In addition, many Ulster A.A.S. programs fit well with the last two years of a New Paltz degree program. For example, students in Criminal Justice or Human Services can pursue a political science or sociology major at New Paltz and complete requirements for a New Paltz degree within two additional years.

Q. Which of my Ulster courses will count toward my New Paltz major?

A. Using a current New Paltz catalog and this transfer guide this question can be easily answered. The guide lists those courses required for each New Paltz major that can be taken at Ulster. These courses will apply toward the requirements of each specific major as listed.

Q. How many of my Ulster courses will count toward my New Paltz major?

A. As a general rule, One-half of the credits in the major must be completed at New Paltz. Please see the New Paltz catalog for details, www.newpaltz.edu/ugc.

Q. Can field service, independent study, and special topics courses taken at Ulster be counted toward my major at New Paltz?

A. Field Service, Independent Study, and Special Topics may be acceptable toward a major pending review of appropriate documentation by the chairperson of the major department at SUNY New Paltz.

Q. Are all the courses I could take at Ulster listed in this booklet?

A. No. This guide only lists those courses which are equivalent to courses required of a specific major at New Paltz. Courses at Ulster that do not meet a major requirement are still transferable as “free” electives. This guide does not list courses which are offered only at SUNY New Paltz.

Q. How can I be sure of which courses I still need to complete my major at New Paltz?

A. Each major, with the full list of courses required, is described in the most recent edition of the New Paltz undergraduate catalog.

Q. What is the total number of credits required for a New Paltz degree?

A. New Paltz requires 120 academic credits for most of its degree programs. Among the 120 academic credits, a number of liberal arts credits are required for each specific degree.

- 90 for the Bachelor of Arts (B.A.)
- 60 for the Bachelor of Science (B.S.)
- 30 for the Bachelor of Fine Arts (B.F.A.)
- 48 for the Bachelor of Science (B.S.) in Art Education

NOTE: The Electrical and Computer Engineering Programs have a different set of degree requirements and a greater number of credits are needed to complete the degree. Music Therapy also requires credit beyond the traditional 120. Students seeking a baccalaureate degree with certification under the new State Education Department requirements may need an extended time frame in which to complete the degree.

Liberal arts courses taken at Ulster transfer towards this liberal arts credit requirement. Of the 120 academic credits, 45 must be upper-division level.

Q. What is the upper-division requirement?

A. Simply put, it is a requirement, common to many four-year colleges and universities, that a minimum number of credits be taken at an advanced level. At New Paltz, this consists of courses numbered at the 300, 400 and 500 levels. Each applicant to New Paltz receives a transfer credit evaluation which will summarize the number of credits, if any, which can transfer this requirement.

Q. What is the Writing Intensive requirement?

A. This requirement is separate from the General Education program. All students, including transfers with an A.A. or A.S. degree, must complete a three-credit New Paltz course, designated as Writing-Intensive, before graduation.

Q. How long will it take me to complete my program at New Paltz?

A. Normally, A.A. and A.S. degree holders from Ulster when transferring to a parallel program, can complete their New Paltz degree in two additional years of full-time successful study. However, if a complete change of major is made, it may take longer to complete the degree. Certain specialized fields such as electrical engineering, computer engineering, education, and music therapy may require additional studies beyond the normal four semesters. Finally, due to budgetary restrictions and increased demand for certain select majors, both native students and transfer students may, in some instances, require additional time in which to complete degree requirements because of more limited availability of certain coursework.

Q. Is there any additional information or advice available to me as a student transferring to New Paltz?

A. Yes, there are many sources. First, to help you make a well-informed decision, New Paltz provides an "Advisor in Residence" on the Ulster campus one day each month to assist in the process of program planning and transfer. In addition, the Undergraduate Admissions Office provides all accepted applicants with a transfer credit evaluation. This evaluation summarizes the total number of credits which will be accepted in transfer to New Paltz, and shows specifically how your credits will be applied to general degree requirements. You should also discuss your plans with an Ulster advisor and the transfer/career and placement office at Ulster.

Q. How do I obtain financial aid?

A. Financial Aid is available to eligible transfer students to help defray the costs of tuition, fees, room, and board at New Paltz. Information on how and when to apply for each of the available financial aid programs is sent to each transfer student at the time of acceptance.

Q. Is housing available on the New Paltz campus?

A. Yes. There are thirteen residence halls on the New Paltz campus, all of which are coed. A number of residence halls maintain a 24-hour quiet policy, which is a good arrangement for those students who prefer to study in their rooms rather than in the library. Housing on campus can be very limited, so it is recommended that transfer students apply early and adhere to all application deadlines. Some off-campus housing is available in the Village of New Paltz, but off-campus space in apartments and private homes is usually very difficult to obtain.

SUNY NEW PALTZ: A BRIEF PERSPECTIVE

Character: Very competitive, four year regional university; co-educational; residential; publicly assisted; liberal arts/sciences/professional studies.

Founded: 1828 as the New Paltz Academy.

Location: New Paltz, New York; small, historic village (pop. 8,600) in mid-Hudson region; midway between Albany and New York City.

Main Campus: 216 acres; 60 major buildings including residence halls.

Ashokan Field Campus: 376 acre environmental and historical education center located on the Ashokan Reservoir.

University Calendar: Two, 14 week semesters, two summer sessions. Scheduled university closings: all university offices closed for state/federal holidays and weekends. Class schedule published each semester in the Schedule of Classes and on the university web site: www.newpaltz.edu. Weather delays and/or class cancellations posted with local/regional media or call 845-257-INFO.

University Enrollment (2004-2005):
Undergraduate: Full-time 5,430, Part-time 761
Graduate: Full-time 421, Part-time 991.

Student Geographic Distribution: 91% from New York State, 5% Out-of-State, 4% International, 45% from mid-Hudson Valley.

Student Diversity: 21% under-represented students (7% African-American, 10% Latino, 4% Asian-Pacific).

Residence Life: 14 residence halls (2,800 capacity); Residence life program cited for excellence nationally twice.

University Activities: Over 130 recognized student organizations, 23 fraternities/sororities. Year round schedule of artistic, cultural, educational, and athletic events.

University Athletics: NCAA Division III, ECAC, SUNYAC, NYSWCAA, NECUA

Baseball (M)	Soccer (M/W)
Basketball (M/W)	Softball (W)
Cross Country (M/W)	Swimming (M/W)
Field Hockey (W)	Tennis (W)
Volleyball (M/W)	

University Staff:

Faculty: Full-time 294
83% have Ph.D. or terminal degree in their discipline
38 Faculty - SUNY Chancellor's Award for Excellence in Teaching
6 Faculty - SUNY Distinguished Professors
2 Faculty - SUNY Distinguished University Faculty
Part-time 392

Undergraduate Programs Offered: Nearly 100 programs within: College of Liberal Arts & Sciences, School of Science & Engineering, School of Business, School of Fine & Performing Arts, School of Education. Unique offerings: Seven year medical program; seven-year doctor of optometry program, university Honors program, extensive international education program (overseas study) including Freshmen Semester In England program. Degrees offered: BA, BS, BFA, BSN, BSEE.

Graduate School programs offered: Over 50 programs leading to masters degree, 4 programs leading to pre-doctoral degree, one joint doctoral degree. Degrees offered: MA, MS, MFA, MST, MAT, MS in Education, Certificate of Advance Study, Ed.D with SUNY Albany.

Accreditations: Middle States, New York State Education Department, Art, Art Education, Art History, Communication Disorders, Computer Science, Education, Engineering, Jazz Studies, Music, Music Therapy, Nursing and Theatre.

Computer Availability: Hundreds of microcomputers in academic buildings and residence halls; all residence hall rooms have computer & Internet access.

Library: Sojourner Truth Library

- 525,000 volumes in open stack
- 1.4 Million items in all varieties of microform and CD-Rom
- 1,477 periodical subscriptions
- On-line catalog system
- Subscribes to a variety of on-line research services
- Specialized collection in international studies, art and education
- Seating for 1,100

Faculty /Student Ratio: 1/17

Undergraduate Class Size: 80% of classes average between 20-35 students.

Annual Expenses:

Undergraduate Tuition:
\$4,350 in-state (full-time)*
\$10,610 out-of-state (full-time)*
\$181 per credit (part-time)*
Fees: \$870 (full-time)*
Room: \$4,500*
Board: \$2,670*

MAJOR PROGRAMS

The major programs listed in the sections that follow show the courses a student may take at Ulster County Community College and which may also be applied to the major at New Paltz. In addition, most of the Ulster courses not listed here will be accepted in transfer by New Paltz as general elective credit toward the degree. Remedial/developmental courses do not transfer.

Within existing majors a number of emphases further extend student choices. For example, within the English area a student may select comparative literature or creative writing track. The communications major may select a concentration in public communication, organizational communication, interpersonal-intercultural communication, communication media, or radio-TV production. Music majors may concentrate in applied music, music history and literature, music theory and composition, or music therapy. Geological sciences offers an applied/environmental geology option. Within chemistry a biochemistry emphasis is available, and in the business program concentrations in management, marketing, finance, or international business are available, as well as a CPA approved accounting major. Students should consult the New Paltz catalog for details of other major programs.

ANTHROPOLOGY

Although Ulster does not offer Anthropology courses, a major in Anthropology is available at New Paltz for those transfer students who wish to pursue one. The New Paltz Anthropology Department offers a range of coursework dealing with the evolution of humans, the development and diversity of human cultures, as well as the study of family and social organizations, political systems, and religious systems. The department also sponsors a seven-week field school for students to participate in an actual archaeological excavation.

Students may pursue a major or minor in anthropology in the College of Liberal Arts & Science. They may also select Anthropology courses to be used towards the secondary (7-12) education social studies major. See New Paltz catalog for details.

ART EDUCATION

The Art Education Department offers a program leading to the Bachelor of Science degree. Upon completion of the program, students are eligible for initial New York State certification to teach art in the public schools, grades K-12.

The art education program provides a concentration which includes work in studio art and art history, child and adolescent psychology, curriculum development, philosophical and theoretical approaches to art education, and critical and evaluative analysis in art education. See New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

ULSTER COURSE

EQUIVALENT NEW PALTZ COURSE

ART 103 Drawing and Composition I	09100 Drawing I: Visual Thinking
ART 104 Drawing and Composition II	09101 Drawing II: Visual Thinking
ART 150 Two-Dimensional Design	09102 Integrated Design I: Space and Form
ART 206 Three-Dimensional Design	09103 Integrated Design II: Force
ART 107 Art History I	11201 Art of the Western World I
ART 108 Art History II	11202 Art of the Western World II
EDU 203 Social and Philosophical Foundations of Education	38340 Social and Philosophical Foundations of Education
PSY 200 Psychology of Child Development	80343 Psychology of Infancy & Childhood
PSY 206 Psychology of Adolescence	38372 The Developing Adolescent

A grade of 'B' is required for each course in the foundation sequence (Drawing I: Visual Thinking, Drawing II: Visual Thinking, Integrated Design I: Space and Form, Integrated Design II: Force).

In addition, art education students must complete a series of courses in education, art education, and a specialization in art. See New Paltz catalog for details. Art education courses are not available at Ulster, and must be taken at New Paltz. Some of the art studio courses which comprise the specialization in art may be taken at Ulster. See the ART STUDIO section for details.

Ulster courses not listed above may be accepted in transfer by New Paltz as general elective credit toward the degree with the exception of those courses which are remedial/developmental in nature.

ART HISTORY

The Department of Art History offers courses in the history of painting, sculpture, architecture, graphic and decorative arts, design, photography and film. A major in this department requires 33 credits of Art History courses and leads to the B.A. degree. Students contemplating advanced study in art history are strongly urged to take a foreign language, preferably French or German.

Students in the B-2 Early Childhood and 1-6 Childhood Education programs may select an Art History concentration as part of the education curriculum. See New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

ULSTER COURSE	EQUIVALENT NEW PALTZ COURSE

ART 220 History of 20th Century Design*	11369 History of Modern Design*
ART 250 Art History Seminar*	No corresponding course*

*May be used as elective credit toward the New Paltz Art History major where applicable.

Ulster courses not listed above may be accepted in transfer by New Paltz as general elective credit toward the degree with the exception of those courses which are remedial/developmental in nature.

ART STUDIO

Students seeking an undergraduate degree in art may pursue one of the following programs:

(1) Bachelor of Fine Arts (B.F.A.) in Art Studio, with a concentration in either ceramics, metal, painting, printmaking, graphic design, photography, or sculpture. (2) Bachelor of Arts (BA) or Bachelor of Science (B.S.) in Visual Arts. The program is served by a large staff of practicing artists.

SUNY New Paltz courses numbering 09100, 09101, 09102 and 09103 are requirements common to all of the above programs. The remaining courses listed here are required or elective, depending upon the concentration the student selects. See New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

*REVIEW REQUIRED: All courses taken beyond the freshman year sequence must be reviewed by appropriate option faculty, through portfolio submission, prior to equivalency credit being granted. Coursework not so credited will be considered art electives or general elective credit toward the degree. See Transfer Art Portfolio Submission information.

Ulster courses not listed above may be accepted in transfer by New Paltz as general elective credit toward the degree with the exception of those courses which are remedial/developmental in nature.

ASIAN STUDIES

Although Ulster does not offer Asian Studies courses, an Asian Studies major is available at New Paltz for those transfer students who wish to pursue one.

The major and minor in Asian Studies is designed to provide students with a broad working knowledge of the region's history, geography, language and culture. Students pursuing this major will embark on 36 credits of interdisciplinary courses offered through the following departments: Anthropology, English, Foreign Language, Geography, History, Philosophy, and Political Science. Students are also required to complete at least two years of Chinese or Japanese language.

The minor consists of 18 credits and at least one year of either language, along with courses selected through advisement. One-half of the credits in the major must be completed at New Paltz.

BIOLOGY

Biology encompasses a number of fields that range from molecular and cell biology on one hand to environmental studies and animal behavior on the other. In addition to extensive classroom and laboratory facilities, the Biology Department maintains both scanning and transmission electron microscope facilities. The surrounding area provides an excellent setting for field biology courses.

Students may major in liberal arts biology with a choice of concentrations in (1) Organismal/Environmental Biology, (2) Cell/Molecular Biology and Biotechnology, or they may select a biology major in childhood or secondary education programs. Any of the liberal arts biology major concentrations provide the necessary course work for entrance into the pre-medical professions. (See PRE-MEDICAL PROFESSIONS section of this booklet).

The New Paltz courses numbered 15201 and 15202 (or 15210 Introductory Biology for part-time and transfer students) are required for any of the above major programs. The other courses listed are electives or required for the major, depending upon the specific program. See New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

BLACK STUDIES

The Black Studies Department seeks to provide a more thorough and accurate treatment of the history of Black people in America. It examines the impact of current economic, social and political forces that shape the Black experience and contributes to a basic understanding of the special problems faced by Black people in contemporary American life. The major provides an opportunity to study the artistic expressions of Black people and for research and creative activity in Black studies, both on campus and in the community. In its comprehensive approach, and as a complement to more traditional majors, the Department of Black Studies seeks to prepare students for most professional careers outside the science fields.

Students in the B-2 Early Childhood and 1-6 Childhood Education programs may select a Black Studies history or literature concentration as part of the education curriculum. See New Paltz catalog for details. One-half of the credits in the major must be completed at New Paltz.

ULSTER COURSE	EQUIVALENT NEW PALTZ COURSE

*May be used as elective credit toward the Black Studies major where applicable.

BUSINESS ADMINISTRATION

The School of Business at SUNY New Paltz offers the B.S. in Accounting, Finance, General Business, International Business, Management, and Marketing. These degree programs are designed to meet the demand for qualified graduates to work in today's global marketplace.

All students must take the Core Requirements (39 credits) and have a Math Proficiency Level (MPL) of at least 4. The MPL 4 courses at Ulster are MAT 105 College Algebra; MAT 115 College Algebra and Trigonometry; MAT 116 Intro to Trigonometry; or MAT 211 Elementary Statistics.

Some courses have prerequisites of which students must be aware. The Accounting degree requires 24 major credits for a total of 63 degree credits. The General Business, International Business and Marketing degrees require 20 major credits for a total of 60 degree credits. The Finance and Management degrees require 18 major credits for a total of 57 degree credits.

Acceptance as a major in the School of Business is based upon overall academic performance as well as performance in selected courses. Transfer students should be aware that (1) the university requires at least one-half of the courses in the major be completed at SUNY New Paltz and (2) transfer business courses which are given graduation credit by the university may not necessarily satisfy the business requirement. See the New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

Ulster courses not listed above may be accepted in transfer by New Paltz as general elective credit toward the degree with the exception of those courses which are remedial/developmental in nature.

CHEMISTRY

The Chemistry Department at New Paltz offers many advantages to the student interested in majoring in this field. It provides a strong background in general, organic, physical, and analytical chemistry, and offers a variety of courses not generally available at four-year colleges. New Paltz upper-division undergraduates are able to enroll in advanced courses in biochemistry, materials science, and instrumentation. The small size of upper-division courses encourages close interaction between faculty and students.

High quality modern equipment is used for instruction and research in student laboratories. In addition, the chemistry faculty sponsor student research.

Two undergraduate programs leading to liberal arts degrees are available: the American Chemical Society (ACS) approved major and a general chemistry major. There are also concentrations in biochemistry and biotechnology. In addition, students in the secondary (7-12) teacher certification program may select a chemistry major as part of the education curriculum. See New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

COMMUNICATION AND MEDIA

The Department of Communication and Media has three major programs: Communication Studies includes emphases in Interpersonal /Intercultural Communication, Organizational Communication, Public Communication and Public Relations.

The Journalism major offers students theoretical understanding and the practical skills necessary to succeed in today's news media (See the JOURNALISM section of this booklet).

The Electronic Media major may choose from one of two tracks: media management or radio/TV production. Management majors prepare in areas such as advertising, global media systems, law, research, and programming, for management positions across the various media. Majors in the production track learn how to use the tools necessary to create mediated messages, but more importantly they learn how the technology allows them to communicate effectively.

Students electing the ELECTRONIC MEDIA PRODUCTION SEQUENCE must complete a minimum of two production courses within the New Paltz program. See New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

COMMUNICATION DISORDERS

The Department of Communication Disorders offers two major programs: a liberal arts major and a speech education major. The liberal arts major (588) requires 48 credits and prepares students for graduate study in speech-language pathology, audiology, and related areas. The speech education major (Speech and Language Disabilities, major code 790) meets the New York state requirements for the Initial Certificate as a Teacher of Students with Speech and Language Disabilities. This unique program is linked to the graduate program in Speech-Language Pathology. Please see the New Paltz catalog or the department web page for details.

All students must enter the liberal arts major (588) initially, usually in the fall semester of the junior year. The minimum GPA for declaration of the major is 3.0. (If the GPA is between 2.5 and 2.8, the student may request permission from the Department Chair to take the fall core courses). Admission to the Speech and Language Disabilities major (790) is by application only during the spring of the junior year.

One-half of the credits in the major must be completed at New Paltz.

PSY 200 Psychology of Child Development	80343 Psychology of Infancy & Childhood

Ulster courses not listed above may be accepted in transfer by New Paltz as general elective credit toward the degree with the exception of those courses which are remedial/developmental in nature.

COMPUTER SCIENCE

The Department of Computer Science at New Paltz offers a liberal arts major in computer science and the Math Department offers a major in Mathematics with a concentration in Computer Science.

Transfer students from a two-year degree program in Computer Science which includes several semesters of college-level mathematics (calculus or above) and at least three courses in Computer Science can usually complete the major in Computer Science in two years. See New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

ECONOMICS

New Paltz offers a B.A. and a B.S. in Economics which is designed to incorporate a liberal arts education with a strong background in economics. In addition to the core requirements of the economics program, students have the option of concentrating in business or international economics or they may choose a general economics program. The economics program requires 42-43 credits.

All students must have a Math Proficiency Level (MPL) of at least 4. The MPL 4 courses at Ulster are MAT 105 College Algebra; MAT 115 College Algebra and Trigonometry; MAT 116 Intro to Trigonometry; or MAT 211 Elementary Statistics. See New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

<u>ULSTER COURSE</u>	<u>EQUIVALENT NEW PALTZ COURSE</u>
ECO 101 Macroeconomics	33207 Macroeconomics
ECO 102 Microeconomics	33206 Microeconomics

Ulster courses not listed above may be accepted in transfer by New Paltz as general elective credit toward the degree with the exception of those courses which are remedial/developmental in nature.

EDUCATION

SUNY New Paltz offers undergraduate programs leading to certification in the following fields:

- *Early Childhood (B-2)
- *Childhood (1-6)
- *Adolescence (7-12)
- *Art (K-12) (See ART EDUCATION)
- *Speech and Hearing Handicapped (See COMMUNICATION DISORDERS section)

All of the above programs include intensive fieldwork in public schools and/or specialized institutions depending on the certification area selected.

EARLY CHILDHOOD (B-2) AND CHILDHOOD EDUCATION (1-6)

Students electing either childhood education certification programs must, in addition to, or as part of, the A.A. or A.S. degree, complete specific liberal arts coursework prerequisite to the curriculum, as well as choosing a liberal arts major.

Prerequisite liberal arts coursework includes:

- * 64140 Math for Elementary School Teachers
- * 64240 Geometry: A Modern Introduction
- * 48273 Basic Physical Geography
- * Two semesters of college level foreign language
- * 38371 Child Psychology and Development
- * 38340 Sociological and Philosophical Foundations of Education
- * A Liberal Arts major selected from:

Art History (30 credits)	Geography (30 credits)
Biology (31-35 credits)	History (30 credits)
Black Studies -History/Literature (30 credits)	Mathematics (34 credits)
Earth Science (36 credits)	Political Science (36 credits)
English (30 credits)	Spanish (30-36 credits)
French (30-36 credits)	

One-half of the credits in the liberal art major/concentration must be completed at New Paltz. After meeting all criteria as listed above, as well as maintaining the grade point average required, students may enter the Professional Semester, and subsequently Student Teaching (See New Paltz catalog for details).

JOINTLY REGISTERED TEACHER EDUCATION PROGRAM

Students entering Ulster County Community College may elect to be part of the Jointly Registered Teacher Education Program with SUNY New Paltz. This program is designed to facilitate the transfer of students preparing to become certified teachers in B-2 and 1-6 from Ulster County Community College to SUNY New Paltz. The advantages of this program include the fact that transfer students can complete the childhood education programs in four years (two at Ulster and two at New Paltz) and are also eligible for scholarships designated for education majors.

All JRTEP students must complete the A.S./A.A degree, achieve a 2.75 grade point average and complete a separate application/interview with the School of Education advisor, to be admitted to SUNY New Paltz. Students must also maintain a grade point average of 2.75 their first semester at New Paltz to be admitted to the Professional Semester.

Students interested in this program must meet with the designated Ulster County Community College advisor before initial registration.

ULSTER COURSE

EQUIVALENT NEW PALTZ COURSE

EDU 201 Introduction to Elementary Schools and Teaching Populations in Early Childhood	35370 Introduction to the Education of Diverse Elementary School Settings
EDU 203 Social and Philosophical Foundations of Education	38340 Social and Philosophical Foundations of Education
GEG 101 Physical Geography	48273 Basic Physical Geography
MAT 140 Foundations of Elementary School Mathematics	64140 Mathematics for Elementary School Teachers

ULSTER COURSE	EQUIVALENT NEW PALTZ COURSE
MAT 240 Foundations of Elementary School Geometry	64240 Mathematics for Elementary School Teachers II
PSY 200 Psychology of Child Development	38343 Child Psychology and Development

NOTE: A "C" or better is transferable for all courses except those with an education departmental EDU/35__ course number. This course, 35370, requires a "B-" or better.

NOTE:

1. All childhood (B-2/1-6) education students must complete one year of college level study of a language other than English. See the FOREIGN LANGUAGE section of this booklet for Ulster/New Paltz equivalencies. Sign Language I and II is acceptable in meeting this requirement.

2. For equivalent coursework in the various liberal arts see the appropriate sections of this booklet and the New Paltz catalog.

Students must successfully pass the Liberal Arts and Sciences test (LAST), the Assessment of Teaching Skills-Written (ATS-W) and the Content Specialty Test (CST) of the New York State Teacher Certification Examination in order to be eligible for initial certification. Additional testing in the Assessment of Teaching Skills-Performance (ATS-P) is required for professional certification. These regulations are changing based on the new standards. Check with your education advisor for NYSTCE requirements.

ADOLESCENCE EDUCATION (7-12)

Students seeking 7-12 certification must major in one of the following disciplines:

Biology (65-72 credits)	German (33-45 credits)
Chemistry (56-59 credits)	Mathematics (47-48 credits)
Earth Science (59-65 credits)	Physics (65-66 credits)
English (42 credits)	Social Studies (45 credits)
French (36-48 credits)	Spanish (36-48 credits)

In addition to coursework required in the academic discipline (see appropriate sections of this booklet for equivalencies), one year of college level study of a language other than English, and a series of education courses is also required. Ulster offers the following equivalent coursework.

ULSTER COURSE	EQUIVALENT NEW PALTZ COURSE
EDU 203 Social and Philosophical Foundations of Education	38340 Social and Philosophical Foundations of Education
PSY 206 Psychology of Adolescence	38372 The Developing Adolescent

NOTE:

1. All secondary (7-12) students must complete one year of college level study of a language other than English. See the FOREIGN LANGUAGE section of this booklet for Ulster/New Paltz equivalencies.

2. For equivalent coursework in the various liberal arts majors see the appropriate sections of this booklet and the New Paltz catalog.

Students must successfully pass the Liberal Arts and Sciences test (LAST) and the Assessment of Teaching Skills-Written (ATS-W) of the New York State Teacher Certification Examination in order to be eligible for provisional certification. Additional testing, which includes the Content Specialty Test (CST) and the Assessment of Teaching Skills-Performance (ATS-P), is required for permanent certification.

ELECTRICAL AND COMPUTER ENGINEERING

The Department offers comprehensive programs in Electrical Engineering and Computer Engineering. The Electrical and Computer Engineering programs are accredited by the Engineering Accreditation Commission (E.A.C.) of the Accreditation Board for Engineering and Technology (A.B.E.T.).

Electrical and computer engineering continue to be the growth programs in the field of engineering due to a rapidly changing technological society and expanding industrial needs. The program at SUNY New Paltz is designed to meet these needs generally, and more specifically the needs of the Mid-Hudson Valley. Engineering students graduate with a high level of technical competence combined with a liberal arts education that helps to develop managerial or research potential. Demonstrating its commitment to the liberal arts and sciences, the university has designed a curriculum to insure that engineering students will have a solid background in the humanities and social sciences to complement their professional studies, and to provide them with the knowledge and skill necessary to adapt to a changing world.

A key feature of engineering at New Paltz is the close working relationship the university enjoys with local high technology industry. The interest and support of industry inspired the development of the program and now ensure that it continues to be relevant to expanding and changing industrial needs.

The flexible engineering curriculum is designed to serve full and part-time students, both traditional and non-traditional. The curriculum serves students new to the engineering field as well as those who have had some experience in technical areas.

Engineering students are educated in mathematics and the sciences under the direction of faculty from appropriate departments, while engineering courses are taught by engineering faculty. Students are prepared for research, development, and management positions or for further study of engineering at the graduate level in a research oriented atmosphere.

The Electrical Engineering and Computer Engineering curriculums consist of a humanities/social sciences component, a pre-engineering phase and upper division engineering coursework. It should be noted that because of A.B.E.T. accreditation, the engineering program requires a different, and more specific, liberal arts component than is required by other programs. For details of credits required in each component mentioned above, refer to the New Paltz catalog. See the New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

ENGLISH

The Department of English offers programs designed to give students a knowledge of literary heritage and to develop skills as writers and critics. Within the English major at New Paltz, a student may select one of four options: general liberal arts, graduate preparatory, creative writing, or creative writing for the theater. In addition, students in the childhood (B-2/1-6), or secondary (7-12) teacher certification programs may select an English major. See New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

ENVIRONMENTAL GEOCHEMICAL SCIENCE

Environmental Geochemical Science is an interdisciplinary undergraduate degree program administered by the Department of Geological Sciences, focusing on the environmental aspects of Geology and Chemistry. Through formal courses, laboratories, and research projects, students develop an awareness of the geological and chemical processes that impact society and the environment. Both a major in Environmental Geochemical Science and a minor in Environmental Science are offered. See the New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

FOREIGN LANGUAGES

Ulster students who have taken French, Spanish, or German may continue that study at New Paltz, either as elective courses or as a major in one of those languages. Students in the childhood (B-2/1-6) education programs may select a French or Spanish major, while those in the secondary (7-12) education program may select a French, Spanish, or German major.

New Paltz also offers language instruction in Chinese, Hebrew, Italian, Japanese, KiSwahili, Latin, and Russian. Other languages, such as Arabic, Polish, Portuguese, Swedish, and Yiddish are offered under the auspices of the Weekend and Summer Language Immersion Programs.

New Paltz regularly offers overseas programs of varying lengths in China, Ecuador, France, Italy, Spain, Russia, and Germany, giving students an excellent opportunity to develop language skills and to learn directly about the target cultures. See New Paltz catalog for details.

NOTE: Students seeking certification in childhood education or secondary education must complete one year of college level foreign language.

One-half of the credits in the major must be completed at New Paltz.

Ulster courses not listed above may be accepted in transfer by New Paltz as general elective credit toward the degree with the exception of those courses which are remedial/developmental in nature.

GEOGRAPHY

The department offers a comprehensive liberal arts major to prepare students for graduate study in geography or for employment in fields actively seeking geographers. Students in the childhood (B-2/1-6) programs may select a geography major, while those in the secondary (7-12) program may select geography courses as part of the social studies major in the education curriculum. Additionally, the department offers a standard minor in geography. See the New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

Ulster courses not listed above may be accepted in transfer by New Paltz as general elective credit toward the degree with the exception of those courses which are remedial/developmental in nature.

GEOLOGICAL SCIENCES

Students may pursue a liberal arts major in geology with an optional emphasis in environmental geoscience or environmental geology. In addition, students in the childhood (B-2/1-6) or secondary (7-12) teacher certification programs may select a geology major as part of the education curriculum.

The department has excellent laboratory and equipment facilities, including a full array of petrographic microscopes, a petrographic thin section preparation facility, complete survey equipment for field geology studies, x-ray diffraction and fluorescence equipment, a microcomputer laboratory, and access to an electron microscope facility. Members of the department encourage capable students to make maximum use of equipment, both in class and in supervised independent research. The department also sponsors field study classes which are important to the study of geology.

The geology major requires a number of cognate courses in physics, chemistry, and mathematics, in addition to the geology coursework. See New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

HISTORY/SOCIAL STUDIES

SUNY New Paltz offers a liberal arts major in history. In addition, education students in the childhood (B-2/1-6) teacher certification programs may select a history major, and those in the secondary education (7-12) program, may select a social studies major.

The liberal arts history major requires 33 credits of history coursework including an upper-division seminar. Courses must be selected from European and United States History as well as from regions and cultures outside of these areas. See the History section of the New Paltz catalog for details. The secondary education (7-12) certification curriculum requires a social studies major which consists of selected coursework in economics, political science and geography, as well as in history. See the Secondary Education section of the New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

Ulster courses not listed above are accepted in transfer by New Paltz as general elective credit toward the degree with the exception of those courses which are remedial/developmental in nature.

INTERNATIONAL RELATIONS

SUNY New Paltz is the only Liberal Arts and Sciences unit in the SUNY System to offer the International Relations major. The major and minor in International Relations offer students the opportunity to acquire an in-depth introduction to the field of international relations. The core disciplines of this field of study are Political Science, History and Economics. Courses are also drawn from the Departments of Anthropology, Black Studies, Geography, and Sociology, and accepted for credit in the program. Students majoring in International Relations can, usually after further training at the graduate level, go on to occupations in the business world, government service and education. Since students will be working in a number of departments while at New Paltz, the International Relations major is also a good choice for those looking for a broadly-based field of study even if they will not be pursuing a career in the International area.

International Relations can be combined in creative ways with offerings of other major and minor programs. For example, a major in International Relations can be combined with minors in Business, Political Science, History, Economics or any of the other departments which offer courses in the program. Alternatively, students can minor in International Relations while majoring in one of the other departments. Such combinations will often enhance a student's record as he or she applies for employment after graduation or for admission to graduate programs. See New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

ULSTER COURSE	EQUIVALENT NEW PALTZ COURSE

POS 202 Comparative Government*	77229 Comparative Government*

*May be used as elective credit toward the New Paltz International Relations major where applicable.

Ulster courses not listed above are accepted in transfer by New Paltz as general elective credit toward the degree with the exception of those courses which are remedial/developmental in nature.

JOURNALISM

The Journalism program at SUNY New Paltz, housed in the Department of Communication and Media, offers a course of study that students will absolutely need if they are to succeed in today's news media. At New Paltz, students will have the chance to obtain a bachelor's degree in journalism, a degree that is only available at two publicly funded universities in New York State.

Students will be trained in the essentials of journalism in order to prepare them for a professional internship. Students take a range of practical news writing and news gathering courses and combine them with theoretical classes that introduce the role of the mass media in America's democracy. Courses dealing with the history, the

ethics of the press and law are taught by a faculty of former reporters and editors who have not only worked in newsrooms, but who have also written books and articles about journalism.

In the practical journalism classes, students do all their writing in a computer laboratory that stimulates a newsroom. For prospective editors, there is a desktop publishing system that teaches page design and graphics. See New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

ULSTER COURSE	EQUIVALENT NEW PALTZ COURSE
COM 101 Introduction to Journalism	53230 Journalism I
COM 201 Feature Journalism	53314 Feature Writing
COM 207 Introduction to Public Relations	53315 Public Relations in America

NOTE: Students who transfer both COM 101 and COM 201 will need to complete a supplemental journalism course at New Paltz to meet the minimum number of credits for the major plan.

Ulster courses not listed above are accepted in transfer by New Paltz as general elective credit toward the degree with the exception of those courses which are remedial/developmental in nature.

LATIN AMERICAN STUDIES

Although Ulster does not offer Latin American Studies courses, a Latin American Studies major is available at New Paltz for those transfer students who wish to pursue one.

The major and minor in Latin American Studies are designed to provide students with a broad working knowledge of the region's history, geography, languages and cultures, as well as understanding of the diverse perspectives and value of its people. Students pursuing the major must take a required introductory course and a senior seminar, plus courses selected from a number of different departments, including Anthropology, History, Black Studies, Spanish, Geography, Political Science and Women's Studies. The major is designed to provide students with Spanish speaking skills sufficient for them to pursue some coursework in Latin American cultures and literature taught in Spanish. The Latin American Studies minor does not require proficiency in a foreign language. Students choose appropriate courses from at least three different departments and take a required introductory course.

Either a major or minor in Latin American Studies complements many other fields of study. As examples, a student majoring in International Relations, History, Business Administration, Spanish, or Geography can broaden his or her preparation or either graduate school or employment after graduation by completing a second major or minor in Latin American Studies. See New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

MATHEMATICS

The liberal arts Mathematics major at New Paltz offers three concentrations: pure mathematics, computer science, and actuarial mathematics. The major in Mathematics provides a strong theoretical background for graduate or industrial work. It also focuses on applied areas of mathematics where scientific computing plays a central role.

In addition, students in the childhood (B-2/1-6) or secondary (7-12) teacher certification programs may select a mathematics major as part of the education curriculum. See New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

MUSIC

Programs in music are designed to develop awareness of the beauty and meaning of the art as practiced in the past and present. Flexibility is encouraged in the planning of individual programs, both for those who wish to major in music and for those who wish to acquaint themselves with this facet of our culture. Most music courses reflect an integrated approach to the study of music.

Music majors will choose a concentration in performance (Classical or Jazz), music history and literature, or music theory and composition. A.B.S. degree in music therapy, with a separate set of requirements, is also available. SUNY New Paltz is fully accredited by the National Association of Schools of Music and the American Music Therapy Association. See New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

Placement Exams:

At the time of audition, all students take placement exams in theory, sight singing and ear training to determine their levels of proficiency. Students may choose to take placement exams in piano, voice and guitar in order to place into the advanced level or to waive a requirement.

Outcomes Assessments:

As part of the New York State mandated outcomes assessment process, music majors take examinations each semester in sight singing and music dictation. If students do not maintain these skills, they must repeat sight singing and ear training according to the level of their proficiency. Sight singing is taught in the Sight Singing and Ear Training sequence and in Applied Music. Ear Training is taught in the SS/ET sequence and in workshops throughout the year.

Ulster courses not listed above may be accepted in transfer by New Paltz as general elective credit toward the degree with the exception of those courses which are remedial/developmental in nature.

NURSING

Students enrolled in the A.S. degree Nursing Program at Ulster may wish to consider earning a Bachelor of Science degree in Nursing (BSN) at New Paltz. Additional courses taken at Ulster will facilitate transfer to New Paltz so that upper division nursing degree requirements can be completed within two years. See New Paltz catalog for details.

MOBILITY PROFILE VALIDATION OF NURSING CREDITS

The National League for Nursing Mobility Profile II is used to validate 30 semester hours of lower division nursing credits. Students must achieve at the 40th percentile or above in all four sections of the exam, the test scores of which are valid for 5 years. Students may be exempted from this test if they graduated from an NLN accredited associate degree program in nursing.

PHILOSOPHY

The Department of Philosophy offers both a major leading to the B.A. degree and a minor. Our program is designed to acquaint students with the major divisions of philosophy (logic, theory of knowledge, metaphysics, ethics and political theory, and aesthetics), and with the principal historical and contemporary figures and schools.

Philosophy is inherently interdisciplinary, so many of our courses are connected with other disciplines and subjects such as the natural sciences, the social sciences, history, language, literature and the arts, religion, technology, business, and medicine. Philosophical study requires and enhances the ability to think and write critically and effectively, and is excellent preparation for graduate study in various professions, including medicine, law, government, business and journalism. See New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

ULSTER COURSE

EQUIVALENT NEW PALTZ COURSE

Required:

PHI 205 Ethics

71304 Ethics

Select three electives:

PHI 101 Introduction to Philosophy*

71120 Introduction to Philosophy: Classics*

PHI 203 Logic*

71201 Reason and Argument*

PHI 210 Professional Ethics*

No corresponding course*

PHI 216 Religions of the East*

PHI 217 Religions of the West*

No corresponding course*

PHI 222 Images of America*

71331 American Philosophy*

PHI 230 Special Themes in Philosophy*

No corresponding course*

PHI 240 Topics in Science and Philosophy*

No corresponding course*

*May be used as elective credit toward the New Paltz Philosophy major where applicable.

Ulster courses not listed above may be accepted in transfer by New Paltz as general elective credit toward the degree with the exception of those courses which are remedial/developmental in nature.

PHYSICS

Physics is the study of the laws that govern how our natural universe works. Physicists are employed in a very wide range of activities in and out of physics such as teaching, research, computing, business and finance. Majors often continue with some sort of postgraduate study; a physics degree is an excellent base for professional schools such as law and medicine, in addition to physics itself.

Students in secondary education (7-12) may choose a physics major as part of the education curriculum. A dual degree program culmination in a B.S. in Physics and a B.S.E.E. in Electrical Engineering is also available. See New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

ESC 104 General Geology	50220 Physical Geology

Ulster courses not listed above may be accepted in transfer by New Paltz as general elective credit toward the degree with the exception of those courses which are remedial/developmental in nature.

POLITICAL SCIENCE

The department offers three separate liberal arts majors and three minors: majors in political science, political economy and international relations; minors in political science, international relations, and law and politics. Education students in childhood (B-2/1-6) teacher certification programs may select a political science major as part of the education curriculum. Students majoring in social studies in the secondary (7-12) teacher certification program may take political science courses as part of that major.

The political science program at New Paltz includes courses in American government and politics, comparative politics, political theory, international relations, and a variety of offerings in law and law-related fields. Students may participate annually for academic credit in a Model United Nations Program at Harvard University. The department also offers a full-semester internship program, with a wide variety of internship placements open to students in the New York State Legislature, public agencies of the Rockland, and New York City government. Internships are also available with the Legislative Gazette, which is the only weekly newspaper covering the N.Y.S. Legislature. See New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

ULSTER COURSE**EQUIVALENT NEW PALTZ COURSE**

POS 201 American Government
 POS 202 Comparative Government
 POS 206 Introduction to International Politics

77216 American Government and Politics
 77229 Comparative Government
 77227 Introduction to International Politics

NOTE: Students who transfer two or more of the following courses POS 201, POS 202 and POS 206 will need to complete a supplemental political science course at New Paltz to meet the minimum number of credits for the major plan.

Select two electives:

POS 201 State and Local Government*
 POS 204 Political and Social Philosophy*
 POS 205 Constitutional Law and the Judicial Process*

77318 Local Politics*
 No corresponding course*
 77351 Constitutional Law: National Government*

*May be used as elective credit toward the New Paltz Political Science major where applicable.

Ulster courses not listed above may be accepted in transfer by New Paltz as general elective credit toward the degree with the exception of those courses which are remedial/development in nature.

PRE-MEDICAL PROFESSIONS

SUNY New Paltz does not offer a pre-medical degree. Students who wish to enter such fields as medicine, dentistry, optometry, podiatry, osteopathy, or veterinary medicine need to pursue a strong college program, emphasizing mathematics and laboratory science. It should be understood that few colleges offer a true 'pre-med' program leading to a degree. What all colleges offer is the opportunity to prepare for admission to a health professional school by taking selected courses guided by a knowledgeable faculty advisor. There is also no specific major required by health profession schools, however most students, opt for a major in the sciences since the majority of health profession school course requirements also fulfill portions of a biology, chemistry or physics major. It is important to note that entrance exams include substantial material dealing with the sciences.

Students may select the Liberal Arts and Science-Mathematics and Science A.A. degree program at Ulster and major in a related discipline at New Paltz upon transfer.

What coursework is necessary for the Pre-Med Professions?

All health profession schools require students to have a strong math/science background. The minimum course of study should be:

ULSTER COURSE**EQUIVALENT NEW PALTZ COURSE**

BIO 105 General Biology I
 BIO 106 General Biology II
 CHE 103 General Chemistry I
 CHE 104 General Chemistry II
 CHE 201 Organic Chemistry I

 22201 General Chemistry I
 22202 General Chemistry II
 22318 Organic Chemistry I
 22319 Organic Chemistry II
 75221 Fundamental Physics I
 75222 Fundamental Physics II

OR

OR

PHY 109 General Physics I
 PHY 110 General Physics II
 MAT 211 Elementary Statistics
 MAT 107 Calculus I
 MAT 108 Calculus II

75201 General Physics I
 75202 General Physics II
 64241 Introduction to Statistics
 64251 Calculus I
 64252 Calculus II

Many look for additional coursework in biology, chemistry or physics; consulting with the pre-med advisor will inform students of this information.

Where do New Paltz graduates go?

New Paltz graduates have found success in applying to professional schools; pre-medical students have been accepted at all four SUNY medical schools, as well as such schools as Albany Medical Center, Georgetown, Tufts, the University of Virginia, Mt. Sinai Medical Center, University of Buffalo, Rutgers University and others while pre-dental students have found equal success being accepted at such schools at NYU, Georgetown University of Maryland, Northwestern and others. SUNY New Paltz also offers a pre-optometry/doctor of optometry program with the SUNY College of Optometry in NYC, and a pre-med/osteopathic medicine program with New York College of Osteopathic Medicine.

Advisement

At both Ulster County Community College and SUNY New Paltz, a science faculty member serves as the Pre-Medical Profession Advisor:

ULSTER
Biology Department
Ulster County Community College
Stone Ridge, NY 12484

NEW PALTZ
Biology Department
SUNY New Paltz
1 Hawk Drive
New Paltz, NY 12561

PSYCHOLOGY

New Paltz offers a general liberal arts psychology major, and also a specialized psychology major with an emphasis in psychobiology. A minor in general psychology, and management and organizational psychology are also available. General Psychology is required to declare a major in Psychology at New Paltz.

The psychobiology concentration requires courses in general biology and genetics, between three and six credits in research, and several additional elective courses beyond the required psychology courses. See New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

ULSTER COURSE

No corresponding course*

*May be used as elective credit toward the New Paltz Psychology major where applicable.

Ulster courses not listed above may be accepted in transfer by New Paltz as general elective credit toward the degree with the exception of those courses which are remedial/developmental in nature.

SOCIOLOGY

The liberal arts major in Sociology studies human society and group life. Students may select a major in sociology or a major in sociology with an emphasis in direct care or social services. All three majors require the same four core courses, one of which is offered at Ulster, SOC 101 Principles of Sociology as well as additional elective courses. See New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

*May be used as elective credit toward the New Paltz Sociology major where applicable.

Ulster courses not listed above may be accepted in transfer by New Paltz as general elective credit toward the degree with the exception of those courses which are remedial/developmental in nature.

THEATER ARTS

Students majoring in theater arts may specialize in either Performance or Design/Technical. The department also offers a Theatre Arts minor.

Acting training in the Performance track is supported by classes in directing and musical theatre. The Design/Technical track offers unique programs with the International Alliance of Theatrical Stage Employees, internships with professional companies, and the opportunity for a B.F.A. degree in Scenography. See New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

ULSTER COURSE	EQUIVALENT NEW PALTZ COURSE

*May be used as elective credit toward the New Paltz Theatre Arts major where applicable.

Ulster courses not listed above may be accepted in transfer by New Paltz as general elective credit toward the degree with the exception of those courses which are remedial/developmental in nature.

WOMEN'S STUDIES

Although Ulster does not offer Women's Studies courses, a Women Studies major is available at New Paltz for those transfer students who wish to pursue one.

Women's Studies is an interdisciplinary academic program offering a Bachelor of Arts degree, a minor, and a Women's Studies Literature concentration for the childhood education programs. The foundation of the program is the study of women, past and present, in various fields of inquiry. The courses examine the presuppositions of academic disciplines from a feminist, multicultural perspective. They explore aspects of women's social, cultural and political experience in the United States and throughout the world. Some courses are offered through Women's Studies, and others are offered through other college departments. An interdisciplinary course, *Women: Images and Realities*, provides the introduction to the program. There is a women's studies Practicum and a Senior Seminar for majors. See New Paltz catalog for details.

Ulster courses not listed above may be accepted in transfer by New Paltz as general elective credit toward the degree with the exception of those courses which are remedial/developmental in nature.

DISCLAIMER

Notwithstanding anything contained in this guide, the State University of New York at New Paltz expressly reserves the right, whenever it deems advisable (1) to change or modify its schedule of tuition and fees, (2) withdraw, cancel, reschedule or modify any course, program of study, degree or any requirement or policy in connection with the foregoing, and (3) to change or modify any academic or other policy.

AFFIRMATIVE ACTION

SUNY New Paltz supports Affirmative Action and Equal Opportunity and does not discriminate against individuals or groups on the basis of race, sex, age, national origin, religion, disability, veteran status, marital status, or sexual orientation in education or employment, or in any of its policies or programs. All actions toward employees and students are based upon performance-related criteria. Further, SUNY New Paltz will not tolerate sexual harassment of employees or students.

Any person alleging discrimination should contact the
Affirmative Action Office at 845-257-3293.
