Careers In Computer Engineering

Sample Job Titles (some of the following titles may require additional education)

- Information Systems and Cybersecurity
- Embedded Firmware Engineer
- Project Management
- Software Development
- Computer Hardware Engineer
- Web Application Architect
- Computer Architecture
- Robotics
- Computer Design
- Artificial Intelligence
- Test Engineer
- Control Systems Engineer

Our Graduates...Where Are They Now?

Alumni who graduated in the past 1 to 5 years have obtained employment as:
- Junior Automation Tester, QualiTest Group
- Front End Developer, Offerpop
- Systems Engineer, Mississippi Power
- Web Developer, KnockMedia
- Software Engineer, IRIS Data Management Center

Alumni who graduated in the past 6 to 10 years have obtained employment as:
- Core Verification Engineer, IBM zSystems
- Software Architecture Consultant, Siemens Corporate Research
- Chief Data Scientist/Director of Analytics, US Environmental Protection Agency
- Software Dev & Engineering, QA Applications, Comcast Cable
- Software Engineer, IBM

Alumni who graduated over 10 years ago have obtained employment as:
- Information Security Officer, SUNY New Paltz
- Front End Developer, Warby Parker
- Principal Technical Engineer, Oracle
- Information Systems Manager, Omnicom Group Inc.
- Vice President and Senior Network Engineer, Hudson River Technologies and Computer & Network Security Consultant

...In addition, alumni have completed the following graduate programs:
- Johns Hopkins University, M.S., Computational BioPhysics
- Rochester Institute of Technology, M.S., Information Technology
- Rensselaer Polytechnic Institute, Ph.D., Computer Science
- University of Bridgeport, M.S., Computer Science
- RPI - The Lally School of Management and Technology, M.B.A., Management and Technology
