Careers In Mechanical Engineering

Sample Job Titles *(some of the following titles may require additional education)*

- Aeronautic Engineer
- Aircraft Engineer
- Applications Engineer
- Automotive Engineer
- Design Engineer
- Sales Engineer
- Rail Engineer
- Construction Engineer
- Project Engineer
- Quality Assurance Engineer
- Systems Analyst
- Technical Consultant

Other SUNY Graduates...Where Are They Now?

*SUNY Alumni who graduated in the past 1 to 5 years have obtained employment as:*

- Systems Engineer, Lam Research
- Mechanical Design, Tobyhanna Army Depot
- Founder & CEO, Audesis
- Engineering Development Programmer, Siemens Energy
- Industrial Engineer, Kimber Manufacturing, Inc.

*SUNY Alumni who graduated in the past 6 to 10 years have obtained employment as:*

- Project Officer, NYC School Construction Authority
- Lead Wind Fleet Performance Engineer, GE Power & Water
- PV Designer, SolarCity
- Design Engineer, Amphenol Aerospace
- Core Structural Engineer, Ford Motor Company

*SUNY Alumni who graduated over 10 years ago have obtained employment as:*

- Technical Writer, Synchrony Financial
- Owner, Ettinger Engineering Associates
- Global Director, Disruptive Growth & Innovation, Anheuser-Busch InBev
- Manager, Assembly and Test Operations, Moog Inc.
- Director Health Systems and Process Improvement Engineering, Mount Sinai Health System

...In addition, alumni have completed the following graduate programs:

- University at Buffalo, M.Eng, Engineering Management
- Stony Brook University, MBA, Finance
- RPI-The Lally School of Management and Technology, MBA, Innovation and Technological Entrepreneurship
- Binghamton University, Master of Science, Industrial & Systems Engineering
- University of California, Riverside, Ph.D, Electrical Engineering
- University of Maryland College Park, Master's degree, Aerospace Engineering

*The mechanical engineering program expects to graduate its first class in 2018. Therefore, the above reflects outcomes from SUNY schools similar to SUNY New Paltz.*
