Careers In Environmental Geochemical Science

Sample Job Titles (some of the following titles may require additional education)

- Field Energy Consultant
- Environmental Scientist
- Reliability Engineer
- Water Resources Engineer
- Survey Technician
- Gas Transmission and Distribution Planner
- System Operator
- Researcher
- Analytical Chemist
- Water Quality Researcher
- Mapping Specialist

Our Graduates...Where Are They Now?

Alumni who graduated in the past 1 to 5 years have obtained employment as:
- Field Energy Consultant, SolarCity
- ITAM Coordinator, Knight Federal Solutions
- Assistant System Operator, Central Hudson Gas and Electric Corporation
- Communications Coordinator, NYC Department of Parks and Recreation
- Forest Bird Survey Technician, Sharon Audubon Center
- Water Quality Researcher, CRREO
- Mapping Specialist, D&B Engineers and Architects, P.C.

Alumni who graduated in the past 6 to 10 years have obtained employment as:
- Gas Transmission and Distribution Planner, Central Hudson Gas & Electric Corporation
- Construction Manager/Environmental Scientist, The Chazen Companies
- Scientist II, Cornerstone Environmental Group, LLC
- Geologist II, Tectonic Engineering & Surveying Consultants, P.C.
- Public Health Sanitarian, Dutchess County Department of Behavioral and Community Health

Alumni who graduated over 10 years ago have obtained employment as:
- Environmental Scientist, Paulus Sokolowski and Sartor
- Reliability Engineer, IBM

...In addition, alumni have completed the following graduate programs:
- Master of Science, Environmental Engineering Technology/Environmental Technology
- Clarkson University, M.S., Civil Engineering
- Bard Center for Environmental Policy, M.S., Environmental Policy
- Johns Hopkins University, M.S., Environmental Policy and Science
- State University of New York College of Environmental Sciences and Forestry, M.S., Water Resources Engineering
- New York Medical College, M.S., Environmental Health
