Teaching Assistantship (TA) positions are available to a limited number of students each year. Selection for these positions is competitive. Assistantship duties involve aiding faculty in teaching either undergraduate Psychological Statistics or Research Methods. The position entails a six-credit tuition waiver per semester plus a stipend. Current stipends are $2,500 per semester ($5,000 per academic year). Candidates for TA positions are chosen by the Graduate Coordinator in consultation with the Graduate Committee and the instructors who will be overseeing the TAs. Therefore, applications should be submitted on an invitation only basis.
