

SUNY fixes up hall for business, nursing

NEW PALTZ — The School of Business and the Nursing Department at the State University of New York at New Paltz opened their newly renovated home in van den Berg Hall Tuesday.

The building includes leadership and accounting and finance labs for the business program. Classrooms equipped with distance learning technology allow nursing students to connect with experts across the country.

The Ulster Savings Charitable Foundation donated \$100,000 to the college to help renovate the exterior and maintain the building's entrance.

Built in 1930, the building is named after Lawrence H. van den Berg, the first president of the State Teacher's College at New Paltz.
