

**Program Application
Bachelor's Degree Programs
Department of Secondary Education**

The Secondary Education Department's BA and BS degree programs lead to eligibility for initial New York State teaching certification for grades 7-12 in the areas of English, foreign language (French, German, Spanish), mathematics, science (biology, chemistry, earth science, physics), or social studies.

These rigorous programs are designed for candidates who are "committed to becoming caring, critical, and reflective professionals responsive to the needs of a diverse society" (see Conceptual Framework <http://www.newpaltz.edu/secondaryed/>). Program graduates must demonstrate competence in the following areas: inquiry, intellectual growth, professionalism, appreciation of human diversity, advocacy for youth, and democratic citizenship (see Program Learning Outcomes <http://www.newpaltz.edu/secondaryed/>). Students begin this five-semester program in the second semester of their sophomore year after they have earned 45 or more credits.

These programs require extensive pre-student teaching field experiences in addition to a full semester student teaching in both a middle and a high school. Fieldwork and student teaching sites are in a variety of regional schools within one hour of the New Paltz campus. For some programs additional fieldwork sites exist in New York City and Utica, New York. Students remain responsible for their own transportation and must understand that some sites require up to an hour commute.
