Anthropology

The department sponsors an archeological field school annually, which provides opportunities to participate in excavations at significant archeological sites in the Mid-Hudson region.

Internship Opportunities:

- New York State Museum in Albany
- Historic Huguenot Street
- American Museum of Natural History

Majors encouraged to study abroad:

- | | |
|-----------|------------|
| ▪ China | ▪ Ireland |
| ▪ Vietnam | ▪ Mexico |
| ▪ Spain | ▪ Tanzania |

Asian Studies

Asian Studies is the second fastest growing interdisciplinary major at New Paltz. The faculty is comprised of 12 affiliated faculty members from multiple disciplines within the College of Liberal Arts & Sciences.

Majors enter the workforce with a competitive advantage by studying two of the three largest world economies (China and Japan), as well as the world's largest democracy (India).

The Friends of Asian Studies Endowment supports study abroad and student-faculty research.

Black Studies

Founded in 1969 to provide an accurate and thorough treatment of the history of people of African ancestry.

Offers majors in liberal arts and sciences and elementary education.

Curriculum is multi-disciplinary with courses drawn from history, humanities, sociology, psychology, political science and economics.

Communication

Curriculum combines theory and practice, with the goal of helping students achieve a broad liberal arts education while also developing specific skills they need for today's job market.

HYDRAULIC COLD-PRESS TECHNOLOGY

770 ELMWOOD AVE. 716 - 545-1000

Student project – Public Relations Campaign

Offers concentrations in:

- Interpersonal/Intercultural Communication
- Organizational Communication
- Strategic Communication

Students participate in internships at for-profit and non-profit companies, both locally and in New York City.

Communication Disorders

Renovated department spaces encourage student/faculty collaboration.

Undergraduate majors participate in specialty clinics, field work and independent study.

Graduate students gain clinical experience in the campus Speech, Language and Hearing Center, schools, medical and health practices.

Graduate program concentrations

- Speech-Language Pathology
- Speech and Language Disabilities

Counselor Education

Counselor Education includes intensive supervised practicum and internship experiences during which students actively work with clients and other students in mental health-related training settings.

Practitioner-scholar oriented program:

- 100 hours for practicum (fieldwork in second semester of first year)
- 600 hours for internship (beginning in second year)

Graduate Programs include:

- M.S. in Clinical Mental Health Counseling
- M.S. in School Counseling
- Advanced Certificate in Clinical Mental Health Counseling
- Advanced Certificate in Trauma/Disaster Mental Health

Digital Media & Journalism

Majors in Journalism, Digital Media Production and Media Studies.

Students have access to professional production equipment, audio and video editing suites and a state-of-the-art television studio.

Students earn regional, state and national awards for journalism, documentaries and public service announcements.

The James H. Ottaway Sr. Visiting Professorship hosts Pulitzer Prize-winning journalists and best-selling authors.

The Legislative Gazette, an online paper based in Albany, offers opportunities for student writers, photographers and videographers.

Economics

The department emphasizes quantitative research methods, writing, history of economic thought and effective communication.

Economics student groups organize field trips to New York City's financial district and professional conferences.

The program prepares students for graduate studies in a variety of fields, including economics, business, law and international relations.

English

Students receive a well-rounded liberal arts foundation and skills such as writing and research that help prepare them for a wide range of careers. The updated and diversified curriculum includes works by major authors from Shakespeare to Kundera and Lahiri, creative writing courses in fiction, poetry, and memoir.

The teaching assistant program trains graduate students to become teachers while earning tuition credit and a stipend.

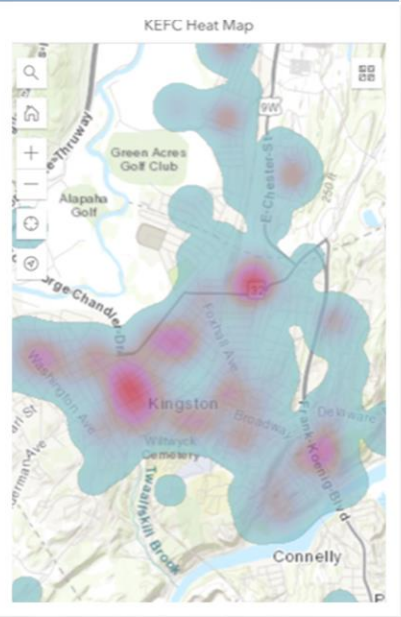

Graduate Pathways:

- Five-Year BA/MA Program
- New MA with Creative Writing Concentration

Geography and Environmental Studies

Geography, the study of the earth and its people, offers courses combining the study of climate, land, political-economy and culture. Environmental Studies is an interdisciplinary program that builds on a foundation in Geography with perspectives from a range of other social and physical sciences.

Gregg Krupp '19, used his GIS expertise to create a "heat map" of demand for meals through the Kingston Emergency Food Collaborative.

Internships are available in regional/state agencies:

- Department of Environmental Conservation
- Scenic Hudson
- Ulster County Department of the Environment
- Dutchess County Planning and Development
- Mohonk Preserve

Students present research at professional conferences such as the Middle States Division of the Association of American Geographers.

History

The History Department offers a wide range of courses from ancient Rome to Modern China. It's packed full of award-winning professors who encourage students to take advantage of internships at many of our local historical sites.

Internship opportunities include:

- Franklin Delano Roosevelt Library and Museum in Hyde Park, N.Y.
- Historic Huguenot Street in New Paltz
- Vassar Brothers Medical Center in Poughkeepsie, N.Y.

Graduates of the History Department have attended prestigious law, graduate and professional schools, ranging from Harvard to the University of Iceland.

Languages, Literatures & Cultures

The department advances proficiency in foreign languages and multicultural awareness in an increasingly global society.

Languages (frequently taught by native speakers) offered include:

- Chinese
- French
- German
- Italian
- Japanese
- Hebrew
- Kiswahili
- Portuguese
- Spanish

The department collaborates with several other departments to offer interdisciplinary courses in subjects such as Asian Studies and Women's, Gender and Sexuality Studies.

Latin American & Caribbean Studies

The Latin American and Caribbean Studies Program offers courses in areas such as history, geography, economics, political systems, artistic and literary expressions and activism.

As international trade expands through new agreements and trade associations, employees with experience and training in Latin America will be increasingly valuable.

The program supports student-led groups:

- Latin American Student Union
- Afrolatin@ Leaders
- Caribbean Students Organization
- Spanish Club

It also hosts conferences, speaker series, film festivals and Cinco de Mayo celebrations.

Philosophy

Students participate in undergraduate research opportunities such as independent studies and the Summer Undergraduate Research Experience, which fosters close working relationships between students and faculty. As a result, many philosophy students have gone on to present their work at undergraduate research conferences.

Students graduate from the philosophy program with a strong and broad set of intellectual skills, including reading, writing, analysis, and argumentation, that are useful in any career path.

Political Science & International Relations

Programs integrate academic rigor with real-world experience.

The department offers a wealth of experiential learning opportunities, including:

- Global Engagement Program
- United Nations Semester
- Harvard Model United Nations

Students complete internships at the international, federal, state and local levels.

Graduates are accepted into prestigious graduate schools and law schools, while others have landed positions at Fortune 500 companies, law firms, government agencies, or have begun careers in finance and consulting.

Psychology

All psychology majors take a writing-intensive capstone seminar. Elective courses in anthropology, biology, business, communication, computer science, history, philosophy, political science and sociology are strongly encouraged.

Students collaborate on faculty research, present at conferences and write articles for industry journals. These accomplishments help students get accepted into graduate programs and begin great careers.

Graduate Programs include:

- M.S. in Psychological Science
- Combined BA-MS 4+1 Program (complete BA psychology and MS psychological science in 5 years)

Sociology

Students complete required field work internships that emphasize diversity and an understanding of social systems.

Concentration possibilities include:

- basic sociology
- human services
- criminology

Graduates can continue their education in graduate school and often become lawyers and social workers.

Women's, Gender & Sexuality Studies

The program began in the 1970s, making it one of the oldest such programs in the SUNY system. Faculty members come from several different disciplines including history, economics and sociology.

Students gain valuable experience through participation in practicums, special courses and local and on-campus internships.

The program's fieldwork and outreach include:

- Presentations of educational programming in public schools
- Organizing conferences
- Conducting advocacy work

5:00-6:30pm
Honors Center**

Bi Guanliang
Traditional Chinese Art Performance

Join us, for a Special Guest Performance, Bi Guanliang in Traditional Chinese Painting and Calligraphy at the Mid-Autumn Festival

Where: Sojourner Truth Library Lobby
When: Wednesday
September 21st, 2022
Time: 5-7pm

Bi Guanliang currently stands as the honorary chairman of the A & C Culture Center in New York, and vice chairman of the Chinese Artists Association of America. He has acquired many accolades and recognition for his works such as "Rainy Morning in the Lotus Plateau", which was featured in the 13th National Exhibition of Fine Arts of the People's Republic of China. In view of his contribution to the cultural exchange between the East and the West, he was recently commended by the New York State Assembly and nominated for the Fukuoka Prize in Japan.

HOLOCAUST SURVIVOR

SPEAK LIVE

**7pm Tue
Sep 13th**

**SUNY New Paltz
Lecture Center
Room #108**

Tibor Spitz World Renowned Artist, PHD in Chemistry, Survivor

This may be your last chance in your entire life to hear first hand from someone who survived the atrocities of the Holocaust.

Most of your peers, and even some of your friends will never hear directly from someone who actually saw the horrors.

In just a few years, there won't be a single living Holocaust survivor left in the world.

We must make sure that as many people as possible hear this message and can say "I looked into the eyes of someone who told me their personal story".

RSVP: www.JewPaltz.com/Holocaust

Brought to you by the Jewish Studies Program, the Jewish Student Union, the History Club, & Chabad of New Paltz

Miriam Ward '15

(History, Digital
Media Production)

Before studying at New Paltz, I thought I would spend my college years studying strictly technical television production skills. I was terribly wrong. Studying the liberal arts and history in particular has made me a better producer and a better creative by having the tools to write and think critically. My liberal arts education prepared me to be a global citizen in a world that is extremely connected and diverse. The tools I learned through my liberal arts education are applicable in every aspect of my career.

Alumni: Liberal Arts in Action

Sarah Tatko '06, '08g

(Communication Disorders)

It's commonly said that medicine is equal parts art and science, but I think this is true of all fields. If you can't approach a business deal with sensitivity, respect, and a keenness toward your partner's motivations, likely you're not fully capitalizing on the opportunity. If you're in a science or technology field and lack an appreciation for the unknown, the random, and the beautiful mysteries of life, your calculations will always fall short.

Alumni: Liberal Arts in Action

Alex W. Peimer '10
(Geography)

“Rather than seeing environmental problems as purely technical issues, my liberal arts training has taught me to question the source of these problems and how they are dealt with differently across social, economic, geographic and historical contexts. Embedded in almost every social and environmental problem are questions of cultural meaning, value, ethics and aesthetics that are only deeply explored in non-technical coursework.”

Alumni: Liberal Arts in Action

Conor O'Riordan '19, '20g

(History, Mathematics and
Computer Science)

I would never abandon the liberal arts to pursue a STEM education alone; on the contrary, I view my studies in mathematics and computer science as natural extensions of the humanities. The liberal arts provide a wellspring of knowledge that never ceases to pique my curiosity. To devote myself exclusively to the humanities or to STEM would have been to deprive myself of so many opportunities and encounters with interesting people on both sides of the spectrum.

COLLEGE OF LIBERAL ARTS & SCIENCES

About the College

We are the largest and most diverse academic unit at the State University of New York at New Paltz. We are home to 17 departments and interdisciplinary programs, primarily in the Humanities and Social Sciences. In addition to undergraduate major courses of study and graduate programs, the College of Liberal Arts and Sciences currently offers eleven interdisciplinary minor curricula, often in conjunction with other schools on campus. We are also host to allied units such as the Speech-Language and Hearing Center and the Center for Middle Eastern Dialogue. Through these programs, students develop the knowledge and skills of a liberal education and acquire focused expertise in fields of major and minor study.

Our faculty's work at New Paltz reflects their passionate intellectual and professional engagement. Together with our students, in curricular and co-curricular learning experiences, we promote reasoned, compassionate dialogue. We are devoted to students' success as lifelong learners and as
