TINKER is designed to expose girls to different disciplines of engineering while debunking common misconceptions about engineering that prevent women from entering this field. TINKER originated at University at Buffalo SUNY and this summer SUNY New Paltz is hosting our first TINKER camp.

Camp activities include:

• Hands-on projects
• Teamwork Exercises
• Networking with female engineers

• Tours of local engineering companies
• Presentations from professors
• Connecting with peers

AUGUST 1–5, 9AM–5PM

• For incoming 9th-11th grade high school female students
• Fee: $400
• Registration is now open! Register at TinkerGirls.org, select “SUNY New Paltz” as the program.
• Registration closes by July 8th.
• Banquet Closing ceremony Friday evening for Parents

Any questions? email Dr. Dahle at dahler@newpaltz.edu

TINKER will be conducted by members of SUNY New Paltz’s student group Women In Science and Engineering
