The State of New York will occasionally instructs campuses to add items (especially new products) to the list of prohibited items if it is determined that they pose a health or fire hazard. Residence Life will inform students if this happens. At that point, any student in possession of such an item will need to remove it from the premises immediately.

Additionally, SUNY New Paltz reserves the right to have students remove from campus any item which is not listed but deemed to be a fire or health and safety hazard by the Department of Residence Life, the Environmental Health and Safety Office and/or the NYS Fire Marshall.
**What if an illegal appliance or item is found?**

Residents are Officially Requested to take the item to the Resident Assistant office for storage until the resident can make arrangements for its removal to an off-campus location. Should the student fail to comply with the Official Request, the item will be confiscated and the student will be subject to disciplinary action. Students will also be subject to disciplinary action for repeat offenses.

Illegal items that have been confiscated by or returned to Residence Life Staff will be stored for no more than 90 days. Stored items that are not claimed and removed from campus will be discarded. SUNY New Paltz shall bear no financial responsibility for discarded items.
