

Initiating and Optimizing a Student-led Move out Program

The Goodbye, Goodbye! Story at RIT

Initiating and Optimizing a Student-led Move out Program

PRESENTERS

Enid Cardinal - Sustainability Advisor, Rochester Institute of Technology

Nim Dhillon - Campus Coordinator, Post-Landfill Action Network

Josh Goldowitz - Professor (Environmental Sustainability Health & Safety),

Rochester Institute of Technology

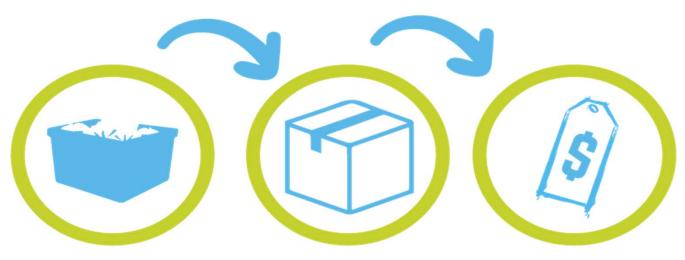

Sarah Quirk - Undergraduate (Environmental Sustainability Health & Safety), Rochester Institute of Technology, leader of Goodbye Goodbuy and undergraduate researcher funded by NYSP2I grant

The prefect and received presented barein partially frieded by NIVC Delivition Dresignition Institute

Goodbye, Goodbuy!: A Student-Led Sustainability Program

11 student employees
300+ volunteers
2 weeks
70,000 pounds of usable goods

MOVE-OUT COLLECTION

SUMMER STORAGE

MOVE-IN SALE

The Beginning

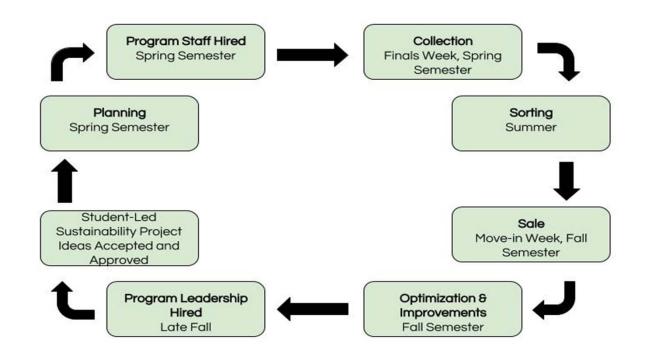

Goodbye, Goodbye! was started in 2015, by two students.

35 tons of usable goods were collected, and sold for \$21,000-enough to fund the next year's program.

The program connected groups on campus like never before.

Lifecycle of Goodbye, Goodbuy!

Program Partners

Goodbye, Goodbuy! would be impossible without the support of these departments and groups on campus.

- Sustainability
- Student Aux Services
- Facilities Management Services
- President's Office

- Center for Residence Life
- Housing
- Dining
- Orientation
- Student Groups & Clubs

How does this program benefit the campus?

Waste Diversion

Lower University hauling costs, less FMS and Maintenance work.

Accessible, Affordable Goods

Student budget friendly, available right on campus.

Employing Students

Student involvement, commitment, and planning in every part of the process fosters program investment.

Campus Sustainability

Commitments

Reinforces RIT's promise to sustainable progression.

Community Involvement

Collaboration of those from all backgrounds creates a sense of shared purpose, opportunity for future growth.

Humanitarian Aid

All food donated to the program (~8,000 lbs) was given to FoodShare, an oncampus food pantry for students.

Year 2: Optimizing the Program

Data Collection

Local Community Development

Media and Press Features

2016 Program Review

Collection

- Over 300 volunteers gave time during exam week
- 34.5 tons of solid waste was diverted
- Primary sorting happened alongside collection
- All in under 7 days
- Impact of our data collection and scruting is boundless

Sale

- 200+ volunteers help set up the sale, making more than \$24,000
- Hundreds of couches, desks, and other furniture pieces sold
- Literal tons of clothing distributed to the local community
- Items delivered within a 5 mile radius from campus

Improved Data Collection

Thanks to a grant from the NYS Pollution Prevention Institute, the program was able to increase our analysis efforts.

- Collected information about every incoming donation: weight, origin, and timeframe.
- Weights of food, toiletries, household cleaners, hygiene products, and furniture, aiding in:
 - Solid & Hazardous Waste analysis
 - Donations to local shelters
 - Cradle to Gate carbon footprint calculation
 - Planning for future collection processes
- Inventory of all collected goods showed scope of program

Local Community Development

- In its second year, the program donated goods to seven more charities within Rochester.
 - Provided specialized supplies to shelters based on their specific needs.
- Around 8,000 lbs of food sent to RIT's FoodShare pantry, providing students with food at no cost to them.
- Volunteers were welcomed from the Rochester community, allowing them to interact with students and campus, and learn more about the culture and program.

Media and Press Features

This year, Goodbye, Goodbuy! was featured in several print and virtual news sources- both at RIT, and in Rochester.

- Brought the Program and University great attention and press
- Informed local community of program benefits, volunteer opportunities, and the idea of "waste" as an asset.
- Expanded brand recognition and program presence.
- Created a student Marketing position

Overall Benefits of the Program Campus Sustainability

Waste Diversion

Lower University hauling costs, less FMS and Maintenance work.

Accessible, Affordable Goods

Student budget friendly, available right on campus.

Employing Students

Student involvement, commitment, and planning in every part of the process fosters program investment.

Commitments

Reinforces RIT's promise to sustainable progression.

Community Involvement

Collaboration of those from all backgrounds creates a sense of shared purpose, opportunity for future growth.

Humanitarian Aid

About 8,000 lbs of food to an on-campus food pantry for students. Tons of supplies to local shelters.

Pollution Prevention

Campus Carbon Neutrality

Am. College & University President's Climate Commitment.

Over 40 NYS Colleges and Universities, including many SUNY campuses have pledged to attain carbon neutrality.

Carbon Footprint avoidance through Student Led Move Out Collections can help us achieve that goal

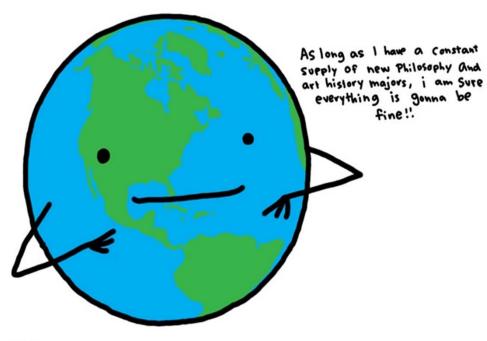

How does a Student-Led Moveout Program help the Carbon Bottom Line?

Based on LCAs and Cradle to Gate Carbon Footprints we can approximate the carbon avoidance due to new product displacement.

AND

...EPA determined that greenhouse gas pollution threatens Americans' health and welfare by leading to long lasting changes in our climate...

Carbon dioxide (CO₂) is the primary greenhouse gas pollutant. (USEPA)

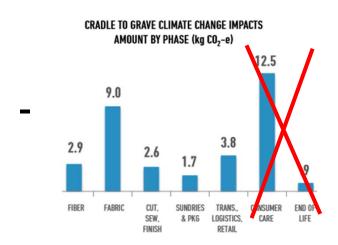

Natalie Dee.com

Carbon Footprint Avoidance Direct Application Example-Blue Jeans

Carbon Footprint Avoidance Data Extrapolation Example

Office Furniture

Desks Cradle to Gate 0.40 ton Carbon per ton of desks

Other Clothing
Cotton Fabric Carbon/ton
Weight of collected clothing

Small electronics Still Searching!

Who We Are:

The Post-Landfill Action Network cultivates, educates, and inspires the student-led zero waste movement. We inform students about the waste crisis and equip them with the necessary skills and resources to implement solutions to waste in their campus communities. PLAN empowers our generation to be change makers.

PLAN's Approach

Support network

Program advising

Workshops/certification trainings

November Workshops & Certifications

Workshops and Trainings are open to all! Free for member campuses, non-members pay a small fee. See the link for more. (postlandfill.org/workshops-and-certicications)
